### Guards' Concert.

The concert in aid of the Methodist Guards' Armory fund, held at the College Hall last night, was largely attended, and proved highly successful. The following programme was carried out, the several items evoking much applause. Quartette, the Band; song, J. Strang; song, G. Summers; song, Miss E. Herder; quartette, the Band; whistling solo, Mrs. Strang; song, C. Hatcher; club singing, Mr. Mould; song, James Pike. A particular feature of the programme was a court martial scene, very effectively staged. The scene is laid in a camp, where the night sentry is killed by the enemies' spies, who are captured and brought to court martial. After the concert teas were served by the lady friends of the Guards.

### N. W. Storm Worst for Years.

For the past three days a terrific northwest hurricane has been raging over the island, playing havoc with the telegraph lines, shutting off the city from communication with the outposts, throwing the train service out of kilter and holding up of shipping, particularly our coastal boats. The storm is one of unusual severity as ever since it began the weather has been intensely cold and frosty and up to the present the weather glass is at zero. Last night and the previous one were the coldest for the season. The thermometer was below zero, while, in addition, the hurricane was in its height, and raged at about eighty miles an hour. The piles of snow on the country roads along with the bitter cold atmosphere is making it difficult for farmers and milk vendors to reach the city and transact business these mornings. On the whole the storm has been one of the most severe ever experienced in the city.

### Splendid Report of the Canada Life.

ANOTHER RECORD YEAR FOR THIS FINE OLD COMPANY.

It has become a matter of habit to look for a favorable Annual Statement from our oldest Life office, and that printed to-day is no exception to the rule. All along the line the accomplishment was good, and in many respects better than in any previous year.

The policies issued in 1913 were for nearly \$17,000,000, and those actually paid for were for \$15,349,000, bringing the total business in force up to \$158,121,364.

The premium income was \$4,713,845, and the consideration for Annuities \$892,607, while the interest income was \$2,488,433. The total income for the year, from all sources reached the enormous sum of \$8,094,886, an increase of about \$700,000 over the previous year.

The assets now stand at \$52,161,795 having increased in the year by over \$3,860,000.

The Canada Life has always moved along conservative lines, its ambition being for strength rather than mere size, and the President, E. W. Cox in his address announced the complete valuation of all bonds and debentures owned by the Company or the Amortization system. This revaluation has been going on for some years, and means practically that the valuation of these securities is based on the original price paid, their present value being computed under the actual rate of interest realized. This method assumes that the security will be held till maturity, when the will be at par, and it enables the company to ignore market values.

This is a method of valuation which the Life Presidents' Association is urging the different State throughout the Union to adopt, an the voluntary action of the Canada Life management in ignoring the temporary advance of fluctuating market values is to be highly commended. It is one more indication of the solid and substantial nature of everything pertaining to that great Company.

The death of Senator Cox was marked by a resolution of the Directors, in which the great value of his services to the Company was noted.

The new President, E. W. Cox, has devoted his business career to the welfare of the Canada Life, and with support of his capable staff will, with our doubt, conserve the interests of the policyholders to the very best advantage.

Mr. C. A. C. Bruce, the Manager for Newfoundland, reports that business in this Colony for 1913 was most satisfactory. The volume of new insurance written was considerably more than for 1912, and the total business in force is now about two and a half millions.

DEATH OF ST. JOHN'S LADY.—There passed peacefully away on February 17th inst., at Queen Alexandra Sanatorium, London, Ontario deeply regretted by her relatives and a host of friends, Rita, second eldest daughter of Mr. and Mrs. W. J. Sinnott, this city. The deceased was the wife of John T. Jones, of South Norwood, Surrey, England, and leaves to mourn two children who are at present here with their grand-parents.

LAST NIGHT'S ARRESTS.—Two arrests for inebriation were made last night, considering yesterday was a whole holiday, things were quiet in police circles. One of the offenders was released on deposit, and the other was up before court to-day.

HE WON THE SWEEP.—A member of the Fourth Estate was the happy winner of the sweep pulled off in one of our city printing offices to-day on the result of last night's hockey match. As is usual in such cases the winner generally treats the crowd. The winner in this case thought it would be a good idea to have his good fortune remain in the minds of his co-workers for some time to come. He treated them to a feast of "all-day suckers," with the result, we hear, of the dentists doing a brisk trade in the near future.

### At Home.

The annual "At Home" in aid of the C.C.C. took place in the British Hall last evening, and was in every respect a great financial and social success. The spacious hall was crowded, and the promoters of the affair must have felt gratified at the result of their efforts in this particular event. Before dancing commenced an interesting programme of vocal and instrumental selections were given, which were greatly appreciated. Amongst those taking part were Miss Strang, Messrs. H. H. Goodridge, C. Hutton and a number of St. Patrick's Hall boys. An enjoyable programme of dances followed, the band furnishing excellent music for the occasion.

### Stanfield's Underwear.

Sleeping in the cold and silent clay to-day are many men who should be alive and active — an asset to their country, but they, allowed cold after cold to go on uncare for — result — Death. Many of these colds were contracted through wearing cotton underwear. There is nothing more dangerous in cold climates. After perspiring freely it is like a cold wet rag 'round the body, and the fleece rolls off in little icy knobs. Throw it away. Wear wool, it absorbs all moisture and lessens the chances of catching cold. Stanfield's, from \$1.00 per garment.
