ARE MORE BECOMING THAN FLAT LENSES.

The edges of Toric Lenses do
not show as prominently as
those of flat lenses. They fit in
close to your eyes. You will find
Toric Lenses much more becoming and
useful. They give you a wider,
clearer field vision. You should
know about Toric Lenses. Let us
explain them.

INSECT ADVENTURES.

(By J. HENRI FABRE.)
Translated by Alexander Teixeira de
Mattos and Adapted for Young
People by Louise S. Harbrouck.

Could any child fail to be interested
in nature subjects if he had a chance
to learn about them from Fabre, a
scientist unequalled in his chosen field
of insect life, and a master of the art
of appealing to the youthful imagina-
tion? His profound knowledge is im-
parted in terms of fascinating adven-
ture. "The caddis worm," "pirates,"
"the insect submarines," "the spider's
telegraph wires" are introduced to the
child reader. The life stories of the
bee, the wasp, the spider, the fly are
told with that whimsical imagery and
fanciful twist which make them read
like a fairy tale. The charm of the
book is completed by the fascinating,
quaint sketches, very French in style,
which are profusely scattered through
it. Illustrated, \$2.00.

"The Mystery of the Hasty Arrow,"
illustrated; cloth \$1.50. Anna Kath-
erine Green's new book
"Songs from a Young Man's Land,"
\$1.50, by Sir Olive Phillips-Wolley.
These Poems pulse and throb with
the new spirit of unity and solidarity
that is vibrant throughout the flag-
ging Empire to-day.
