MANUFACTURE OF COCOA.—We will now give an account of the process adopted by Messrs. James Epps & Co., manufacturers of dietetic articles, at their works in the Euston Road, London.—See article in *Cassell's Household Guide*.
PAYSON'S INDELIBLE INK is indelible still; it is plainly written on the minds of the public; after forty years' test it still holds its own and is the only reliable and standard marking ink in existence. It is used with a common pen for marking linen, silk and cotton, and will not wash out.

THE GREAT SUPERIORITY OF DR. WHEELER'S Compound Elixir of Phosphates and Calcarea consists in its being purely physiological in its action in restoring all forms of debility by supplying the waste of tissues resulting from mental and muscular exertion, and thus preventing nervous prostration and general debility. For building up constitutions of low vitality from scrofulous, or consumptive diseases, or impaired by dissipation and bad habits, it is unequalled, as it immediately imparts energy to the digestive apparatus, and creates healthy blood, thereby invigorating all the organs of the body in the same manner as our daily food. Phosphates are the only compounds of Phosphorus which are assimilated by the system, and are Nature's agents for maintaining the vital powers.

PROTECT YOUR BUILDINGS
 Which may be done at one-fourth the usual Expense, by Using **Glines' Patent SLATE ROOFING PAINT!**
AGENTS WANTED IN EVERY TOWN.

A Roof may be covered with a very cheap shingle, and by application of this slate may be made to last from 20 to 25 years. Old roofs can be patched and coated, looking much better and lasting longer than new shingles without the slate, for **ONE THIRD THE COST OF RE-SHINGLING.** The expense of slating new shingles is only about the cost of simply laying them.
The Paint is Fire-Proof
 against Sparks or Flying Embers, as may be easily tested by anyone, and appears from the fact that Insurance Companies make nearly the Same Tariff as for Slated Roofs. For Tin and Iron it has no equal, as it expands by heat, contracts by cold, and seven cracks won't scales. For Fences it is particularly adapted, as it will not corrode in the most exposed places. Roofs covered with Tar Sheathing Felt can be made water-tight at a small expense. The Slate Paint is
EXTREMELY CHEAP!
 Two gallons will cover over 100 square feet of shingle roof, or over 400 of tin or iron. **No Tar is Used in this Composition,** therefore, it does not effect the water from the roof, if turned off from the eaves before the first few rains. On Decayed Shingles it fills up the holes and pores, hardens them, and gives a new, substantial roof that will last for years. Curled or Warped Shingles it brings to their place and keeps them there. It fills up all holes in tin or felt roofs, and **STOPS THE LEAKS.** The color of the slate when first applied is dark purple, changing in about a month to a light uniform slate colour, and is, to all intents and purposes, SLATE. The Paint has a very Heavy Body, but is easily put on, and, although a slow dryer, rain will not affect it in the least one hour after applying.
ROOFS EXAMINED. ESTIMATES GIVEN.
 And when required will be Thoroughly Repaired.
 Orders Respectfully Solicited.
