

Like a Waterfall

Great Suffering
After the Grip

Tremendous Roaring in the Head
Pain in the Stomach.

"To C. I. Hood & Co., Lowell, Mass.:
"Two years ago I had a severe attack of the Grip, which left me in a terribly weak and debilitated condition. Last winter I had another attack and was again very badly off, my health nearly wrecked. My appetite was all gone, I had no strength, felt tired all the time, had disagreeable roaring noises in my head, like a waterfall. I also had severe headaches and

Severe Sinking Pains
In my stomach. I took medicines without benefit, until having heard so much about Hood's Sarsaparilla, I concluded to try it and the result is very gratifying. All the disagreeable effects of the Grip are gone, I am free from pains and aches, and believe

Hood's Sarsaparilla
is surely curing my catarrh. I recommend it to all." Geo. W. Cook, St. Johnsbury, Vt.

HOOD'S PILLS cure Nausea, Sick Headache, Indigestion, Bilelessness. Sold by all druggists.

SUSPECTED POISONING.

A Detective To Be Sent to Kemptville
To Investigate the Case.

HAMILTON, March 9.—The Attorney-General has received from Kemptville, Ont., the contents of the stomachs of Alexander Kennedy and his wife, who died on Saturday after partaking of porridge for their breakfast. The remainder of the porridge not eaten has also been received, and the articles will be handed over to Prof. Ellis for analysis. Lizzie Poole, aged 15, the young girl from the Fairview Orphan's Home in Brockville, who prepared the porridge and also partook of some of it at breakfast, has been returned to the home, where she is under surveillance, but the suspicion is entertained that she deliberately poisoned the family do not seem to be borne out by the evidence. However, a Government detective will be sent to Kemptville to investigate the facts.

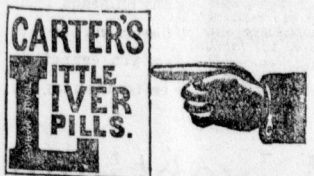

First Train Into Jerusalem.

are now at the Jerusalem station, which is 2,430 feet above the level of the sea at Jaffa, and we have made the journey in three hours and a half. Two years and a half have been occupied in building the road, and the cost of it was not far from \$2,000,000. Four dollars will buy a round-trip ticket, first class, good for two days, from Jerusalem to Jaffa. On Sunday, Aug. 21, an engine came within a few hundred yards of the Jerusalem station, but the track to it had not then been laid, and it was not until Saturday, Aug. 27, at 10 o'clock in the forenoon, that the first train from Jaffa, with engine and passenger cars, actually arrived at the station. This is stated as official information, partly for the reason that some persons like to be exact in such matters, and partly because the report has, either through oversight or carelessness, been widely circulated that the first train arrived at Jerusalem on Sunday, Aug. 21, which is not historically correct.—[Selah Merrill, U. S. consul, in the March Scribner.

The Scimitar Snake.

There is a little reptile belonging to Madagascar known as the scimitar snake, that is, the curling sword. Running along the back from head to tail is a blackish, horny substance, which bends with the convolutions of the snake's body as readily as would a well-tempered steel spring; and throughout its entire length it bears an edge as hard as flint and sharp as a razor. They are not poisonous, but when one of them springs on a man, which he likes very well to do, he will soon have a leg off unless cracked on the pate. Some snake specialists claim that the presence of this reptile on the island is the reason there are no large quadrupeds to be found there at present, the curling sword in back ages having taken off legs faster than they could be created.

Williams' Royal Crown Remedy is said to be a wonderful spring medicine. It seems to build up the constitution as nothing else ever has. Take no substitute.

CURE SICK HEAD

Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

ACHES
Headache, yet CARTER'S LITTLE LIVER PILLS are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cure

Ache they would be almost priceless to those who suffer from this distressing complaint but fortunately their goodness does not stop here and those who give try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head

Small Pill. Small Dose. Small Price.

TEN MILLIONS AT STAKE.

Jim Keene Stands to Win or Lose That Sum at the Chicago Board of Trade.

CHICAGO, Ill., March 9.—"Jim" Keene, according to the Journal to-day, stands to win or lose \$10,000,000 on the Chicago Board of Trade. Operating through Sigmond Gruner, a stock cotton and sugar broker of New York, Keene has obtained control of about 20,000,000 bushels of the best wheat in the western storehouses, and has accumulated a prodigious line of futures. The cash end of the deal is in charge of "Sandy" Eggleston, and the speculative end in charge of John Cudahy, both masters in their specialties. Nearly all of the "contract" wheat in Chicago, amounting to about 10,000,000 bushels is now high grade property in St. Louis, Minneapolis, Duluth and other western centers is controlled by the same individual. Besides his immense cash holdings in this city Eggleston has cornered about all the elevator space in Chicago that can be any possibility become available for the storage of new receipts between now and the end of May. He has accomplished this feat by contracting with elevator companies to provide him room for several million bushels of grain which he expects to receive before the end of May.

KAILANI VISITS WELLESLEY.

The Girl Students Enthusiastic—The Princess Off for Washington.

BOSTON, March 9.—Three hundred girls greeted Princess Kailani, heir to the Hawaiian throne, at Wellesley College to-day. The visitors were then taken to the building, to the laboratories, lecture and class rooms. Just as the Princess reached the hall the college cheer broke forth. "Wellesley-Wellesley." This was repeated three times and preceded with the customary "Rah, rah, rah," and ending with a clear soprano note that echoed through the great building. The Princess smiled in enjoyment of the scene. She was then escorted to the faculty parlor, where a luncheon was served. The visitors returned to the city on the 1:40 o'clock train and left for Washington to-night. In Washington the Princess will call on President Cleveland. The capital the pay, possibly, will go to Chicago to view the World's Fair buildings, thence back to Boston and New York, where they will sail for England, so that the young Princess may resume her studies.

TALK OF TAR AND FEATHERS.

Rev. Frank Lines' Neighbors Incensed at His Treatment of His Wife.

OTTAWA, Ill., March 8.—Several weeks ago Rev. Frank Lines, pastor of the Second M. E. Church, of Ottawa, caused his wife, who had at one time been an inmate of the Elgin Insane Hospital, to be taken before the county court and placed on trial for sanity. The first trial resulted in a disagreement of the jury, and a second trial was at once entered upon. Mrs. Lines being declared insane and ordered sent to Kankakee. Before the judgment of the court could be carried out Mrs. Lines' friends requested that she be allowed to remain with them for a few days, and Judge Lincoln, who questioned the wisdom of the jury, granted their request. Yesterday afternoon she was again placed on trial, and Dr. Hatheway, Dyer and Burrows, who had examined her, swore that she was perfectly sane. She was then discharged. Feeling against Mr. Lines has been growing ever since the first trial, and he has received several warnings written in blood. He is threatened with tar and feathers by his neighbors.

BARTENDERS MUST BE TEMPERATE.

One of Them Fined by His Union for Being Intoxicated While at Work.

NEW YORK, March 9.—There was a good deal of talk in labor circles yesterday over the severe rules introduced into Bartenders' Local Union 2. One of its members, in accordance with these rules, was tried by a committee and found guilty of being intoxicated while at work. This rule is to be strictly enforced. Another rule is that bartenders must be strictly attentive to duty under pain of suspension from the union. The first case under this rule was at the West Side Labor Lyceum, where a member was suspended six months for neglecting his duty. These decisions are not altogether popular among some of the other unions. Some of the unionists say that if the rule against delinquents is adopted in other unions the eight-hour movement will be hindered.

Sol. White's Horses Sold.

WINDSOR, March 9.—Twenty-three horses from Sol. White's farm were sold by sheriff's sale this afternoon. They were all well bred, but owing to their poor condition prices were low. Lottie brought the highest price, \$250.

Struck Gas.

RIDGEWAY, Ont., March 9.—The Erie County Natural Gas Company has struck a new gusher on its hitherto undeveloped territory. Yesterday their new well on the Smith farm, about a quarter of a mile west of Shirk's Crossing, came in with a flow of nearly 100,000 feet an hour.

New Teeth at Ninety.

KINGSTON, Ont., March 9.—Mrs. John Smith, of Kennew, 90 years of age, is curing a new set of teeth. They are already five in number and sound and beautifully white. She had never lost her own teeth, though they are now brown with age, but are dropping out to give place to the new.

A Fatal Collision.

PHILADELPHIA, Pa., March 9.—A passenger train on the Central division of the Philadelphia, Wilmington and Baltimore Railroad from Oxford, Pa., this morning, collided with a freight train on the Wilmington and Northern Railroad at Chaddsford junction. Engineer Phillips, of the passenger train, was killed, and Conductor William Cummings, of the same train, was badly injured. The freight train was jumping. No passengers were injured.

The Welsh Tragedy.

DUNDAS, March 9.—The inquest on the body of Daniel S. Welsh opened by Coroner Dr. Ross on Tuesday evening and adjourned that the body might be thawed out was resumed last night. Several competent witnesses were examined, but no important evidence was adduced. The jury decided they would not give a verdict till a postmortem examination was held. They therefore adjourned till Thursday, March 16. There are some ugly marks on deceased's neck, and his body was lying in a perfectly even position as if carefully placed. One side of the vest over the trouser pocket was turned up.

Nothing impure or injurious contaminates the popular antidote to pain, throat and lung remedy and general corrective, Dr. Thomas' Electric Oil. It may be used without the slightest apprehension of any other than salutary consequences. Coughs, rheumatism, earache, bruise, cuts and sores succumb to its action.

Williams' Royal Crown Remedy should be taken in the spring. Every first-class druggist sells it.

IS HE CHARLEY ROSS?

A Toronto Salesman Tells a Peculiar Story.

Kidnapped When a Boy, He Is Given a Free Foreign Trip—Separated from His Abductor—Gone to See Charley Ross' Father.

S. B. Cousins, a salesman of the Canada Paper Company, who resides at 247 Brunswick avenue, would like to find his papa. Mr. Cousins appears to be about 20 years of age, is a blond and a little peculiar and vague in his manner and statements. He said: "I do not know who I am. I remember one time to have been playing in a street with my brother, when two men asked us to take a ride in a wagon. After they had gone a little way they stopped and sent my brother away, but they took me on with them, and some time afterwards I was turned over to a man with ginger-colored whiskers, who kept me, and with whom I traveled in various parts of the world. His home seemed to be in France, as we stopped there longest, and there I was baptized. The man's name was Cousin or Cousin in English, and he had two sons, whom I called brothers, and I, of course, called the man my father. After much wandering from place to place we came one day to Eastbourne in England, where we stopped at a hotel. During the day a company of soldiers came marching through the town, and in my boyish enthusiasm I followed them far out of the city, being completely lost, and was at last picked up by the police in a town eighteen miles distant. I was at that time perhaps 11 years of age. I was sent by the police to a photographer in Hastings, England, named Thomas, at 45 George street, and that photograph might be made of me and sent to various other cities, so that, if possible, I might be returned to Mr. Cousins. The photographer kept me, and as no one came for me I was given in charge of Mr. Williams, who brought me to Canada. Mr. Williams now lives just above Hamilton, and with him I made my home until I came to Toronto a few years ago.

Cleveland Withdraws the Hawaiian Treaty.

WASHINGTON, D.C., March 9.—President Cleveland this morning sent to the Senate a message withdrawing the Hawaiian treaty which has been pending in the Senate.

Important Railway Invention.

WINDSOR, March 9.—A model of an interlocking railroad switch is on exhibition here, and is pronounced by railroad men to be the best of the kind ever brought out. It is so arranged that the wheel of a locomotive will raise the signals on the cross road, and place the rails in such a position that should a train attempt to cross it will run off the track. The invention is owned by Mr. Maconville, Dr. Bechard, and the inventor, John Baucher, of Belle River.

A Missing Canadian Bark.

HALIFAX, N. S., March 9.—T. A. S. De Wolfe & Sons, agents of the bark Juno, 999, which left here Jan. 15 with deals for Queenstown, have not as yet received any advice of the bark's arrival at her destination, and much anxiety is felt. The Juno was shipped five men—John Neilson, John H. Eckersberg, Jas. Collin and W. G. Robertson. In addition the bark carried seven others, making twelve in all. Capt. William Brown is the master. The Juno is owned by T. G. McMullin, of Truro. The finding of a lot of deals and a couple of casks bearing the name of Juno was reported some time ago.

The Cameron Poisoning Case.

BRIDGEPORT, N. S., March 9.—The court in the alleged Cameron poisoning case opened this morning. McIntyre's examination was resumed. He said he found no morphine; he would not say death might not have resulted from morphine. It was difficult to detect in the system after death it was only occasionally found, even when taken in large quantities if any length of time intervenes between death and analysis. Witness' evidence went to show the impossibility of morphine having been in the system. His opinion is that the crystals found were not morphine. His examination occupied all day.

A. O. U. W. Grand Lodge.

SYRACUSE, N. Y., March 9.—At the meeting of the Grand Lodge of the A. O. U. W. this morning, the report of the special committee to consider the question of holding biennial sessions was referred to the committee on laws. The question of graded assessments was not acted upon, it being the province of the Supreme Lodge to legislate on the fundamental principles of the order. A resolution to print the assessment notices in the Fraternal Times and the A. O. U. W. Review was adopted. A resolution to print the laws in the French language was referred to the committee on laws. It is probable that the next Grand Lodge will be held in this city.

Life Is Cheap.

Last year 415 men were killed and 9,431 injured in the United States while coupling and uncoupling cars, nearly every one of which might have been prevented if the managers of railways had provided automatic coupling. It is cheap, and that is why we have so few couplers and so many deaths.

Concerning Collections.

Concerning collections, Brother Jasper says: "You tell me the Gospel is free as water. I tell you, yes, but you have got to pay for the tube that brings it." An Indian was converted and was endeavoring to decide which church he should join. He went to the Episcopal, and looking over the prayer-book he saw the oft-recurring words, "Collect, collect." He decided not to join that church.

BRECHAM'S PILLS for a Bad Liver.

Dr. H. R. Abbott has purchased the right to use Land's system of porcelain fillings, crowns and bridge work, and is now in Detroit attending Land's Post Graduate School of Dental Art. 10n

Williams' Royal Crown Remedy for debilitated people.

THE BOARD OF WORKS.

Will Not Grant Any Part of Victoria Park for Free Library Purposes—Does the City Reap the \$800 Granted to the Brigade Camp?—Speculations Passed.

Mayor Essery, Ald. Garratt (chairman), Shaw, Thomas Jones, Taylor, Dreaney, City Engineer Graydon, Secretary Bell, and Commissioner Owen, were present at the commencement of last night's meeting of the Board of Works. The petition of W. J. Scott and others for a sewer on Beecher street, came up and it will be advertised for. If there are enough names on the petition of R. Lampkin for a sewer on Queen's avenue it will also be advertised.

There was a general howl on the part of the aldermen against granting any part of Victoria Park for free library purposes. The application to that effect was unanimously filed. Janitor Edward's account for cleaning the East End Hall was referred to the engineer to report on. He will also report on the question of granting the usual \$800 to the brigade camp, to be held here during June. Ald. Jones expressed the opinion that the camp was not worth the \$800 to the city.

A motion was then made to take up the specifications for sidewalks and supplies. Aldermen Taylor and Dreaney had engagements and wanted to lay the matter over. They moved an amendment to that effect, and Ald. Shaw supported it. Mayor Essery, Ald. Jones and Chairman Garratt opposed it, the vote resulting in a tie. The chairman voted twice and the amendment was lost. Ald. Dreaney and Taylor then left the room and there was no quorum. The secretary, however, was told to continue reading the specifications. He did so, and while so engaged Ald. Coe came in. This made a quorum, and after reading the specifications they were passed in the absence of the other two aldermen.

ATTENDING TO THE SCHOOLS.

No. 2 B. of E. Meets—A Janitor Recommended—Miscellaneous Business.

At the meeting of No. 2 committee of the Board of Education last night, there were present: Trustees I. W. Blackwell (chairman), Love, Turner, Jeffrey, Dewar, Anderson, Martin, Cook, Secretary McElhennan and Inspector Perry.

Inspector Perry recommended that new blinds be procured for Lorne avenue school and paper for Wortley road school.

From Principal Kirk, of Hamilton road school—Re heating and ventilation of four rooms in Hamilton road school. The present system of heating (the Smead) was insufficient. Trustees Dewar moved that a copy of the communication be sent to the company, asking that men be sent to put it in proper order. Carried.

Mr. Kirk also asked for new blackboards for Hamilton road school. Referred to Inspector Perry.

New blinds were ordered to be procured for Rectory street school. Several applications were received for the position of janitor of St. George's school. A ballot was taken with the following result:

Davis.....	3 2
Adair.....	4 3
Brown.....	4 2
Atkinson.....	6 5 5 4
McKenzie.....	3 4 2 2 4
Pook.....	2
Hill.....	3
Drew.....	5 4 5 5 5
Brook.....	3 1
Perkins.....	4 3
Williams.....	3 2
Partridge.....	5 4 3

Mr. Drew's appointment will be recommended.

A communication was read from W. F. Howell, offering to keep the plumbing in the city schools in proper condition at the rate of \$10 per year for each school. Mr. Love thought that the offer should not be accepted, as such tenders were not called for, and if such was considered necessary they should advertise and give the rest of the city plumbers an equal chance. He moved that the engineer be instructed to prepare specifications on the lines laid down in Mr. Howell's communication. Carried.

From F. H. Bailey—For increase of salary as assistant janitor of the Collegiate Institute.

He is now receiving \$3 a week. Mr. Jeffery said the board had granted Mr. Jury \$150 per year to procure an assistant. It was what Mr. Jury had asked, and he did not see why the committee should be asked to increase it. It was Mr. Jury who should pay it. The matter was referred to the chairman, Mr. Cook, and Mr. Martin to interview Mr. Jury.

Mr. M. Donald, janitor of Princess avenue school, applied for remuneration for extra services.

The work was in connection with the new addition to the school, and he was allowed \$3 per week, to date from Sept. 1 to June 30. The matter of picture molding for Princess avenue school was recommended to be purchased, the cost not to exceed \$20. The matter of a janitor for Waterloo street school was brought up. It was reported that the janitor had been off for some time and that three boys had been doing the work. It was moved that the boys be paid and that the amount be deducted from the janitor's salary. The committee then adjourned.

The Difference.

Ex-Gov. Robert Taylor, of Tennessee is reported by the Atlanta Journal as telling this story. He was talking with an old colored man. "Well, John," he said, "what are you doing these days?" "I'm a sorter now, Massa Bob." "An exhorter, you mean." "Yes, wry a sorter-exhorter." "I thought you were a preacher. What's the difference between a preacher and an exhorter?" "Dif'rence 'twixt er sorter an' er preacher is zactly this: Preacher he stick to de text, but sorter he hits all round."

IRREGULAR DELIVERY.

In cases of irregular delivery of the ADVERTISER, notify us at once, and the matter will be looked into.

The Tea Table.

A pretty bouquet of summer flowers, a nice china tea set with the fragrant aroma of the finest Ceylon tea coming from every cup, some good bread and creamery butter, and a plate covered with nice light tea biscuits baked with Pure Gold Baking Powder is sufficient to make the rich as well as the poor rejoice and be thankful.

PARKER'S DYE WORKS.

Wool, Cotton, Sateen
And other
Washing Dresses,
Costumes, etc.,
Beautifully
Cleaned and finished
All made up.
We strongly urge the expediency of sending summer garments to be cleaned EARLY IN SPRING, as we have such a rush of orders in April and May that it is impossible, without standing the large resources of our establishments, to return them with our usual dispatch.
If sent now they would be ready to wear at the first approach of warm weather and so prevent the disappointment which might otherwise result from unavoidable delays.
The finish imparted by our heavy machinery is so durable that they look quite fresh although laid aside for a few weeks.
R. PARKER & CO., Dyers and Cleaners.
