

ALLIES AWAIT NEXT MOVE OF TURK LEADERS

British Capital Is Without
Definite News From
Constantinople.

FRENCH SEND WARSHIP

London, Nov. 9.—London, late tonight, was still without news from Constantinople, but the cable company whose lines have been cut in the Turkish area, held out hopes that communication might be restored tomorrow.

The government also appeared to have had very little wireless communication with Constantinople, and Premier Bonar Law at the lord mayor's banquet in the Guildhall tonight, was unable to throw any further light on the situation. The government knows nothing concerning the whereabouts of the deposed sultan, except that he has not taken refuge, as has been reported, on a British warship.

Official circles point out that the situation is an almost exact counterpart of that which arose from the Chanak area, with the important difference, as emphasized by Mr. Bonar Law, tonight, that there is now no question of isolated action by the powers, who are all working in agreement.

Ismet Pasha, the foreign minister of the Turkish National government, is known to be in Constantinople waiting to go to the Near East conference at Lausanne as soon as the date for the conference is settled. Although the British government maintains the opinion that the change of complexion of affairs necessitates a postponement of the date, it is willing that the delay in convening the conference shall be as brief as possible and hopes it will be able to meet by Nov. 20.

DISPATCH FRENCH WARSHIP.
PARIS, Nov. 9.—The French government has decided to send another battleship to Turkish waters.

COMMERCIAL IS PARALYZED.

Smyrna, Nov. 9.—Commerce is completely paralyzed throughout Asia Minor. One by one the banks of Smyrna are closing. The Greek and Armenian have sealed the vaults of most of the banking institutions, because they would not cash the national authorities with lists of their Greek and Armenian accounts. The order for all the banks to furnish lists of these accounts was issued yesterday by the Kemalists authorities. Most of them refused and their vaults were sealed by armed Turkish guards. The National Bank of Turkey voluntarily closed its doors on the announced grounds that there was no longer any business to be done. The Kemalists have drawn up plans for the reconstruction of the city, but no funds are available for building work of any kind.

PRISON INMATES STILL AT LARGE

Two Men Attempting To Steal
Car Believed To Be
Prisoners.

Special To The Advertiser.

Guelph, Nov. 9.—The five inmates of the provincial reformatory who succeeded in making their getaway on Tuesday evening are still at large, but it would appear that two of them at least did not get very far, which leads to the expectation that all five may be rounded up before many hours are over.

Two of the escaped men were noticed two miles this side of Erin this morning, and it is reported that they nearly succeeded in securing an auto with which to help them on their way. The car belonged to a party of hunters from this city, who went out hunting in the woods and fields in the neighborhood of Hamilton's bush.

While they were doing so two men came out of the bush and made for the standing car, but as soon as they perceived they were detected, they made off down the road again and when last seen were proceeding towards Erin. They answered the description of the men wanted, but as the Guelph hunters were not positive on the subject they did not care to take action without the reformatory authorities, and consequently a hurry-up call was sent immediately dispatched and are now searching the vicinity of Erin for the men who escaped.

Reformatory officials reported this evening that the men had not been captured, although a strong force of guards is scouring the Erin district for the escaped inmates.

CUT REPUBLICAN MAJORITY TO 15

Complete, But Unofficial, Reports Slash Senate Lead
in Two.

Chicago, Nov. 9.—A continuation of Republican control in Congress, but with a majority of 165 in the house slashed to 15, and a Senate majority cut in two, was assured tonight by practically complete, but unofficial reports from last Tuesday's elections.

While the Republicans retained only seven above a house majority of 218 and five above a Senate majority of 48, they will have in the next Congress a plurality of 18 over the Democrats in the house, and 11 over the Democrats in the Senate.

Close races and belated returns left exact majorities in doubt since the election, but on the face of tabulated returns tonight the 65th House of Representatives will be composed of 225 Republicans, 267 Democrats, one Socialist, one Farmer-Laborite and one Independent.

PETITIONS FOR VOTE ON RADIAL BYLAW SIGNED

St. Catharines, Nov. 9.—It is announced here today that the petitions which have been in circulation for some weeks to secure a vote on the St. Catharines-Port Credit hydro radial bylaw had now a sufficient number of names of qualified ratepayers, and will be presented to the city council on Monday next.

THE latest German sport is horseback boxing. Notice the cowboy "chase" inspired by American moving pictures. A literal translation of the word cow-puncher possibly suggested the latest sport.

Unkissed Wife, After Getting Divorce, Declares She Will Never Wed Again

Detroit, Nov. 9.—Mrs. May Coykendall, unkissed wife, who was granted a divorce from her undemonstrative husband, Milton, by Judge Henry A. Mandell, never will remarry, she asserted today.

"When men become too lazy to kiss their wives, it is time to quit," she said emphatically.

Mrs. Coykendall testified that during the first two weeks of their married life her husband lay on a lounge and read dime novels most of the time. He neither kissed her nor displayed any affection, she said.

"He was a widower and I was a widow," she said. "I had known him for 20 years, but I did not know how lazy he was."

FAVORS INDIVIDUAL EFFORT IN WORLD

Sir Joseph Flavelle Addresses
Newspaper Association At
Toronto.

Toronto, Nov. 9.—"The world's work is done by the men and women who do their work well day by day. The joy of struggle, of achievement, of meeting and overcoming fearful odds, is the joy of life. The right of a red-blooded man to do the best he can to exercise individual effort to the fullest degree should be unquestioned. Organizations of whatever kind that stifle ambition, that create distrust, and demand gains and advantages they have not honestly earned are a menace to society."

These opinions, and others equally strong, supported by instances of what men had done by quotations from notable figures in the world of thought and letters, and by observations of his own, were expressed in a carefully-worded address given this afternoon by Sir Joseph Flavelle before a largely-attended luncheon of the National Newspapers and Periodicals Association at the King Edward Hotel.

START PROBE ON GUELPH RAILWAY

Gregory Commission Opens
Investigation With All
Members Present.

Special To The Advertiser.
Guelph, Nov. 9.—The Gregory commission of inquiry into hydro-electric matters opened its probe of the operation of Guelph's street railway system by the Hydro-Electric Commission of Ontario. All five members of the commission were present.

J. W. Giffels, one of the hydro committee, was the first witness. Commissioner Lloyd Harris and Chief Engineer F. A. Gaby had a brief argument over the manner in which the expenditures on the system had been submitted to the ratepayers of Guelph. Mr. Harris had the idea that only the \$49,000 had been sent to the electors.

"That is not correct," said Mr. Gaby. "The first amount sent to the electors was \$150,000; the commission had to get approval for any capital expenditures."

"Did you supply data to the city on all the work to be done and submit estimate?" asked Chairman Gregory.

"We did," said the hydro engineer. "That \$49,000 was only for repairs. It was not rehabilitation work."

"Well, we can hear Mr. Gaby later on," said Mr. Harris. "I am only trying to get a picture of the Guelph situation, and it seems to me to be a very difficult and complex one."

Guelph has already issued \$150,000 debenture bonds, and a second \$150,000 are ready to be issued. If there is any deficit in operation the city of Guelph must put it up for the hydro, either by cash or bonds.

Commissioner Allan F. as asked as to the entire liability of Guelph to the Hydro Commission. "Is it now practically \$450,000 so far?"

Mr. Giffels said that, including the original purchase price of \$150,000, and the two debenture issues of the same amount, the total would reach \$450,000.

METHODISTS CONDUCT SUCCESSFUL SERVICES

Special To The Advertiser.

Courtland, Nov. 9.—The harvest home services of the Courtland Methodist Church were a wonderful success on Nov. 5, when people gathered from all the surrounding country to listen to one of our former pastors, Rev. Thomas Vanden of Paisley, Ontario.

In the morning Mr. Vanden took as his subject, "The Parable of the Treasure Hid in the Field"; in the evening, "The Temptation of Our Lord in the Wilderness."

Interested congregations heard intensely inspirational sermons. Rev. Mr. Vanden was very popular during his pastorate ten years ago.

To have a good laundress in the house means that you have a Want Ad laundress.

ONTARIO FARMERS REACH WINNIPEG

Progressive Members Appear
To Be in Dark On
Crerar's Plans.

Winnipeg, Nov. 9.—Ontario's delegation of Progressive members of parliament arrived here this morning.

Western members are reaching Winnipeg by every train, and it is thought that there will be a very representative gathering when the third party convention opens tomorrow morning.

Senator J. G. Turf, the only Progressive in the upper chamber, will attend.

Members appear to be in the dark as to Hon. T. A. Crerar's plans. They realize the difficulty of his position in trying to perform at the same time the duties of a national political leader and president of the Co-operative United Grain Growers, Limited, and it probably is true that many of them will not be surprised if they

are advised tomorrow that Mr. Crerar has decided to devote all his energies for the next few years to the United Grain Growers.

Should Mr. Crerar resign, the opinion is expressed in many quarters that the Progressive members are more likely to choose a house chairman and a parliamentary committee than they are to select at this time a national political leader.

The men are sure to review the entire political situation, with particular reference to suggestions of fusion with the Liberal government.

Sessions will be held in private, and a review of the situation and announcement of his own position from

Mr. Crerar is expected to be the feature of the first meeting.

REPORTS HEAVY TUNNEL TRAFFIC

Special To The Advertiser.
Sarnia, Nov. 9.—Traffic through the tunnel was reported today to have reached the daily average of 1,925 cars, which constitutes nearly a record. At the same time there is a temporary shortage of cars, as a result of which four shipments are accumulating at the Point Edward wharf. Sixty carloads of flour unloaded from the Huronic, which sailed

yesterday, have been stored in the sheds, and the situation will be made more difficult when the Harmonic arrives on Friday with 80 carloads of flour. Freight accumulation at the tunnel through the embargo on the Central Vermont and other American lines is increasing.

MURINE You Cannot Buy New Eyes

Do you want to Promote a Clean, Healthy Condition of Your Eyes?
Keep your Eyes Clean, Clear and Healthy.
Write for Free Eye Care Book.
Murine Eye Remedy Co., 9 East Ohio Street, Chicago
