SPECIAL TO THE DAILY BRITISH COLONIST

Europe.

LONDON, Sept. 14-A Madrid correspondent of the Times writes as follows : Hitherto the Spanish Government and press unwisely adopted a plan concealstartled the Spanish by making the statement of actual facts and vehemently urging the dispatch of troops and the union of men of all parties so that the United States. Government will be left free to give the Cuban news. General Sickles' proposal to recognize the Cuban Insurgents as belligerents has caused as much excitement as if he had threatened to take part with the Cubans, and has had the effect to make funds fall to the lowest point touched for 16 years. The dispatch of General Sickles is not published. Whatever its moral effect may be the remonstrance of the United States that moral effect may be the remonstrance of the United States the total wreck of the Indian mail steamer than moral effect the Spanson of the Island of Shadow in the Red has unquestionably terrified the Spaniards!

Madrid, Sept. 15. - The Journal asserts that the Government recently sent a circular letter to the great powers respecting the note of Sickles on the subject of the recognition of Cubs, and that replies favorable to the rights of Spain have been received from England, France, and Austria.

London, Sept 14-The Parisians are ersuaded that the Emperor is recovering, although there is a marked alteration observable in his appearance. There is great anxiety in regard to the regency law. The Empress will be Regent during the minority of her son. It is generally believed the Emperor desires to promote a good understanding between the Empress and Prince Napoleon. The idea of trusting a share of Regency to the Prince is discountenanced by some, while reports are current that the Prince's absence on board his yacht is connected with a plan of others in his behalf, if not dis rectly with his own.

Bondon, Sept 15-A meeting in favor of granting pardon to the Fenians now under sentence was held to-day at Clerkenwell. Arrangements are completed for a monster demonstration on Monday next.

Lord Byron's steward denies the truth of Mrs. Stowe's statement.

London, Sept. 15 .- A large meeting of cotton merchants, spinners and manufacturers was held at Manchester last evening for the purpose of considering the condition of the trade in Lancashire. Speeches were made and resolutions adopted asserting that it was expedient to form associations to urge parliament to institute inquiries into the causes of the decreased rate of capital and labor. It was also resolved to hold a series of public meetings in the principal towns; the want of reciprocity in the French treaty and the system of American imports and English exs ports generally were considered.

BERMN, Sept 14-The Centennial Anniversary of Alexandre Von Humboldt is made the occasion of national demonstration. Although the weather is rainy, great crowds participated in the festival in the forencen. There was a procession made up largely of delegates from the principal German cities in the afternoon. The corner stone of the monument to Humboldt was laid with imposing ceremonies, which closed by a decoration of the tomb af the great Naturalist. At Koeningsburg, during the festival in honor of the visit of the Kuz, the railway bridge was overcrowded with spectators and gave way, and many were precipitated into the river. Twenty-four bodies have been recovered.

MADRID, Sept 16—The difficulties with the United States on account of Cuba are in a fair way of settlement. Paris, Sept 16-Burlingame and the

SAN FRANCISCO, Sept. 14.-The cowhiding affair which took place at the Occidenta Hotel, a week since was settled this morning by a duel at Saucalito between the par-ties-Gardiner and Smedbury. It appears that Smedbury had alluded several times to Gardiner as a swindler and blackleg. They met at the Cosmopolitan Hotel one evening, when a soffle ensued and resulted in Gardener challenging Smedbury, which chal-lenge was refused on the ground that the challenger was no gentleman. A week since they met at the Occidental when Gardener struck Smedbury several blows in the face with a heavy cowhide. A second challenge was accepted by Smedbury, and at 3 o'clock this morning the belligerents, with their triends left on the sloop Windor for Sauceli to, where shots were exchanged, Smedbury receiving Gardiner's bullet in the hand, losing one finger and another badly burt. Gardiner is uninjured. Both parties are well known men. Warrants are out for their arrest.

NEW YORK, Sept. 15.—The downward course of Pacific Mail Shares attracts much attention. They declined to-day to 721/4c. the lowest point reached since 1861, when they sold at 50c, in gold. It is stated that a loan was negotiated some time since with a foreign banking firm on Pacific shares. equal to about \$3,500,000 in currency. This onu talls due on the 22nd instant, and will not be repewed. It is also reported that the bulk of capital stock is concentrated in a lew hands, 50,000 to 70,000 shares being held by two firms.

NEW YORK, Sept. 15 .- The Tribune ediorially gives prominence to the following We are credibly informed that certain financiers of our city, in combination with European capitalists, have conspired to buy and withdraw, from use, \$30,000,000 in gold, with the intent to compel those who must pay gold at the Custom House or elsewhere to buy of them at exorbitant rates. ATTEMPT TO MURDER A PRIEST IN A CATH-EDRAL- On August 8th, during morning service in the Lutheran Cathedral of Berlin, just as be young priest uttered the words commencing the creed, 'I believe in God,' a young man who had forced bis way through the crowd and opened the door of the altar rails, cried out 'Thou liest,' and taking a small pistol from under is paletot, fired a shot at the minister. For a moment the whole assembly seemed stupified, but presently a few men seized the would-be assasin who had made no attempt to escape, and delivered him into the hands of the police. The priest, though wounded, read the remainder of the liturgy and the service was concluded in the regular way, but not without special thanksgiving offered for his marvellous escape. The criminal is about 18 years of age and is the son of a smith, who intended him for a preacher, but he had become a Materialist and had declared he would kill the first priest he met.

A SECRETARY FOR SCOTLAND. - We under A SECRETARY FOR SCOTLAND.—We under-stand that the inquiry into the Scotlish of-ficial representation in the House of Com-mons will be conducted on the part of the part of the Government by Mr. Stansfield, of the Treasury, and that it will embrace the economy and efficiency that would result from the various Boards now sitting in Ediphyriph on the Poor Law on Lunacy. Edinburgh on the Poor Law, on Lunacy, and now this new Board of Education, being all placed under the direct control and management of the new secretary. It is important to explain that the new secretary wil not be a Secretary of State, but will hold the same rank in the Government as Mr. Chichester Fortescue, the Secretary for Ireland, and may, or may not, be a member of the Cabinet. The opinion is expressed that there is little doubt that Scotland will have a secretary in the course of next session, and as little that Mr. Baxter will be the first man to hold the office.

LONDON. THE COCOA (OR CACAO) OF MARA-

VILLA is the true THEOBROMA LINNÆUS. Cocoa is indigenous to South America, of which Maravilla is a favored portion. TAYLOR BROTHERS having secured the exclusive supply of this unrivalled Cocoa, have, by the skilful application of their soluble principle and elaborate machinery, produced what is so undeniably the perfection of prepared Cocoa, that it has not only secured the preference of homosopaths and cocoa-drinkers generally, but many who had hitherto not found any preparat on to suit them, have, after one trial, adopted the Maravilla Cocoa as their constant beverage for break fast, luncheon, &c. "AN UNPRECEDENTED SUCCESS."

See following Extract from the Globe of 3 "Various importers and manufacturers have attempted to attain a reputation for their prepared Cocoas, but we doubt whether any thorough success had been achieved until Messrs Taylor Brothers discovered the extraordinary qualities of "Maravilla" Cocoa.

Adapting their perfect system of preparation to this the finest of all species of the Theobroma, they have produced an article which supersedes every other Cocoa in the market. Entire solubility, a delicate aroma and a rare concentration of the purest elements of nutrition, distinguish the Maravilla Cocoa above all others. For Homesopaths and invalids we could not recommend a more agreeable or valuable beverage."
