GENTLEMEN: I have just dommenced on my second bottle "Kidney-Wort." I have but little faith in either doctors or medicine, more particularly in medicines extensively advertised. However, I have suffered perhaps as no other man has suffered from liver disoase—brought on by m laria. I suffered for years, till it became chronic, simply from neglect. I have taken quinton til my had swam, and my nerves were traally unstrung. Last year liwent to Europa to try and better it; but came back worse. In reading many of your advertisements a came to the conclusion, as a dernier resort, to try the "Kidney Wort," and did so. After the fourth day I got an attack of the old malady. I prayed God to relieve me by death, but kept to the medicine as ordered, and I want to tell you to-day, and all sufferers from Liver disease, that the last three weeks I have enjoyed such good health as I have not had in many, many years. I simply write you this that other sufferers may benefit b. it. Ve y Iruly yours, Late Col Opth Reg., N. G., S. N. Y., 173 West Side Ave. Jersey City Heights, N. J.

VICE-PRESIDENTS-HON. WM. MCMASTER, WM. ELLIOT, ESQ.

Referring to the advertisement of this association in The World of Tu sd., las., it may be explained that the much larger sum called for by the valuation made by Profess or Cherriman, under the government standard for Canada, it is required by the valuation made by Mr. Hom is on the standard for the State of New York, arises solely from the greater severity of the Mortality Table of the Institute of Actuaries of Great Britain as compared with the "American Experience" Table of Mortality, as the same rate of interest was used in each case.

The reason why the valuation made by this Association's own actuary clusters was used in each case.

The reason why the valuation made by this Association's own actuary clusters as the first that required by Professor Cherrit man's valuation arises from the fact that the directors consider THAT SECURITY TO THE FOLICY-HOLDERS is the FIRST thing, and, therefore, not content to provide simply as in other companies, they add a additional TEN per cent, to the liability under a BONUS ADDITIONS and PAID UP assortances as well a base heading raid up, such as TEN and FIFTEEN pair.
