Of English graveyards the most crowded is that of Queenborough, in Sheppey. It is about half an acre in extent, and the church records prove that over 17,000 people have been buried in it.

Rain is very much needed in New South Wales, and owing to the great scarcity of water throughout the Colony a severe drought prevails. Destructive bush fires have occurred in many districts.

The death is announced in his eighty-sixth year of the zoologist Sven Ludwig Loven, professor at the University of Stockholm. He was born in 1809 and conducted the first scientific expedition to Spitzbergen in 1837.

Among the Queen's little weaknesses is a taste for heather. Wherever Her Majesty goes a bunch of heather accompanies her, and even when staying on the Continent a supply of the Scottish plant is regularly sent for the adornment of the Royal sitting-rooms.

Dr. Donald Macleod thinks it would be a good thing for the Moderators and the Church if each Moderator during his year of office were freed from his parish duties altogether, and left to wander at large among the various parishes and towns of the country.

Rev. Dr. Mathews leaves London next week to attend the General Synod of the Austrian Reformed Churches in his capacity as secretary of the Pan-Presbyterian Alliance. The Synod meets every six years, and includes Bohemian, Moravian and Austrian churches.

Mr. Holmes, the well-known police-court missionary in London, told an interviewer that drink is connected either directly or indirectly with a great proportion of the crimes which come before the magistrates. It is useless, he says, to send inebriates to prison. They should be detained for a period of at least twelve months.

Lord Balfour of Burleigh, in opening a bazaar at Arbroath, touched upon the question of union, and declared that by the cultivation of Christian feeling and kindly co-operation and interchange of help in difficulties they might get a much closer appreciation of each other's good qualities, and in the result a closer approximation of seeing things from the same standpoint might ultimately be evolved. The bazaar lasted three days, and was in aid of the restoration of the old parish church of Arbroath. The amount realised was £2,150.

A YOUNG GIRL'S TRIALS.

HER PARENTS HAD ALMOST GIVEN UP HOPE OF HER RECOVERY.

Pale and Emaciated, Subject to Severe Headaches, She Was Thought to be Going Into a Decline—Now the Picture of Health and Beauty.

From the Richibucto, N.B., Review.

There are very few people, especially among the agriculturists of Kent County, N.B., who do not know Mr. H. H. Warman, the popular agent for agricultural machinery, of Molus River. A Review representative was in conversation with Mr. Warman recently, when the subject of Dr. Williams' Pink Pills was incidentally touched upon. Mr. Warman said he was a staunch believer in their curative properties, and to justify his opinion he related the cure of his sister, Miss Jessie Warman, aged 15, who he said had been "almost wrested from the grave by Dr. Williams' Pink Pills." Miss Warman had been suffering for nearly a year with troubles incident to girlhood. She suffered from severe and

almost constant headaches, dizziness, heart palpitation, and was pale and bloodless, and eventually became so weak and emaciated that her parents thought that she was in consumption, and had all but given up hope of her recovery. Her father, Mr. Richard Warman, who is a well-to-do farmer, spared no expense to procure relief for the poor sufferer. The best available medical advice was employed, but no relief came, and although the parents were almost in despair, they still strove to find the means of restoring their loved one to health. Mr. Warman, like everybody else who reads the newspapers, had read of the many marvellous cures effected by the use of Dr. Williams' Pink Pills, but like some others, looked upon these stories as "mere patent medicine advertisements." However, as everything else had failed he determined that Pink Pills should be given a trial, with a result no less marvellous than that of many other cases related through the press. Dr. Williams' Pink Pills have completely cured the young lady, so that in a few months, from a helpless and supposedly dying girl, she has become a picture of health and activity. The Warman family is so well known in this part of the country that no one would think of disputing any statement made by any of its members. Mr. H. H. Warman, on account of his business as salesman for agricultural machinery, is personally acquainted with nearly everybody in the county, and we feel assured that any enquiries made of him concerning the statements made above will be readily answered.

The gratifying results following the use of Dr. Williams' Pink Pills, in the case of Miss Warman, prove that they are unequalled as a blood builder and nerve tonic. In the case of young girls who are pale or sallow, listless, troubled with a fluttering or palpitation of the heart, weak and easily tired, no time should be lost in taking a course of Dr. Williams' Pink Pills, which will speedily enrich the blood and bring a rosy glow of health to the cheeks. They are a specific for troubles peculiar to females, such as suppressions, irregularities, and all forms of weakness. In men they effect a radical cure in all cases arising from mental worry, overwork, or excesses of whatever nature.

Dr. Williams' Pink Pills are manufactured by the Dr. Williams' Medicine Co., Brockville, Ont., and Schenectady, N.Y., and are sold in boxes (never in loose form by the dozen or hundred) at 50 cents a box, or six boxes for \$2.50, and may be had of all druggists or direct by mail from Dr. Williams' Medicine Company at either address.
