SANMETTO IN FREQUENT INCONTINENCE IN THE AGED, IN ENURESIS NOCTURNA IN CHILDREN AND IN PRESENLLITY.

I have had good results from the use of Sanmetto in nocturnal enuresis of children; also have prescribed it in cases of frequent micturition in old people, with marked benefit; also find it beneficial in pre-senility. I think it is a good medicine in all cases where anything of its nature is indicated.

S. W. BADGER, M. D.

SANMETTO IN CHRONIC CYSTITIS, CHRONIC URETHRITIS AND PRE-SENILE IMPOTENCE.

To whom it may concern:

This is to certify that I have used Sanmetto extensively in my practice and can recommend it in chronic cystitis and chronic urethritis. I have used it in pre-senile impotence with remarkable and brilliant results. I regard the remedy, after making crucial clinical, tests in the above named diseases, as the sine quanton of all the remedies in these diseases.

THOMAS M. BROWN, M. D.

SANMETTO FOR ENLARGED PROSTATE IN THE AGED AND ENURESIS NOCTURNA IN CHILDREN.

My experience with Sanmetto has been most gratifying. I consider it the greatest remedy I ever used in cases of aged men with enlarged prostate. I am now using it in two cases of nocturnal incontinence—both children are improving rapidly.

W. H. LYLE, M. D.

SANMETTO FOR KIDNEY, BLADDER AND PROSTATIC TROUBLES IN THE OLD WAR VETERANS.

I ordered a bottle of Sanmetto to use in a case of prostatitis, aet. seventy-six years, a veteran of the Civil War and an old pensioner. He has used two bottles besides the one first ordered and he has now completely recovered. His statement of these facts in a G. A. R. Post meeting excited an intense interest among Grand Army men and has resulted in several letters of inquiry to myself regarding the treatment of his case. I take pleasure in giving this testimonial of the good Sanmetto will accomplish in these difficult cases of prostatitis, gravel and kidney trouble among Grand Army men. I unhesitatingly prescribe Sanmetto in every case indicated.

J. A. MEAD, M.D.
