

I have for your benefit one of the best equipped factories for manufacturing of all Orthopedic Appliances there is in Canada. I also make special trusses and belts. I do not use elastic, as it will stretch with the heat of the body and towards the end of the day it will get loose and will not support the weak muscles. In making belts and trusses by measurement I can make them to fit the body perfectly.

My prices are moderate

J. H. CARSON,
52 KING STREET, WINNIPEG

BICYCLES

\$35.00

Our "DOCTOR'S SPECIAL" at above price is a winner. It is equipped with New Departure Coaster Brake, Steel Mud Guards, Roller Chain, English Dunlop Tires, a Brooks Pattern Saddle, Tools, etc. complete. Over 100 sold already. Nothing the matter with them but the price. If you want one send cheque now as the supply is limited.
