CHEERING.

QUR Young Men's meetings have (during the past few weeks) been specially interesting. In fact the interest has at times been such as to make it somewhat difficult to close, and we have realized the truth of God's word, that "Where the Spirit of the Lord is, there is liberty." The testimonies of young men recently brought into the light of the Gospel, have been most cheering; and the words of counsel and encouragement given by older Christians have been profitable. We thank God for these tokens of blessing.

The Young Men's Bible Class also shows a marked increase in interest and numbers.

The Sunday Afternoon Bible Class has an average attendance of about 70.

The Sunday Evening Gospel Meetings

have attracted such numbers as to call for all our floor accommodation in the large Hall; and better still, we believe the word is being carried home to many hearts.

"Our heart's desire, and prayer to God is," that ere long we may be led out into even still more definite CHRISTIAN work, and that every night of the year may see us engaged in the work of telling the "Old, old story of Jesus and His love," to the young men of Toronto.
