

We know that our non-secret preparations are not always the cheapest in price, and those druggists who look for cheap prices, regardless of quality, do not favor us with their patronage; but those who want the best goods at fair prices generally do. We know that there are pharmacists who believe that in medicine "the best of everything is none too good," and who take a pride in having their names appear on preparations of merit which will do their business credit, and give satisfaction to their customers. These are the ones we are interested in, and are the kind we have on our books as customers by the thousands, and it is to such as these that we cater.
