The increase of our business requiring greater accommodation, we have undertaken an addition to our premises, which will give us double its present capacity, and be by far, we believe, the largest and most convenient Warehouse in Canada.

The limited space occupied by some of the Departments at present, compels us to effect a reduction of Stock now and before the completion of building, and therefore offer every inducement to purchasers which the extent, variety and value of Stock can command.

Mail or Wire Orders, or a personal visit, will oblige,

Respectfully,
