English Composition**

MODERN. PRACTICAL.
THOROUGH. METHODICAL.

A New Book, by a Practical Teacher, for
use in Composition Classes in the
Public and High Schools
of Canada.

This book contains 100 lessons, each lesson
consisting of four exercises, and each exercise
being composed on the average of eight ques-
tions or examples. There are thus within its
covers about 3,200 questions for class work.
The exercises are properly graded for use in
the Public Schools and in the junior forms of
the High Schools.

Practical Problems

IN

ARITHMETIC.

For First, Second and Third Classes.

By **JAMES WHITE, Public School Teacher**

EDMONTON, ONT.

This book has been prepared specially to suit the
convenience of Public School Teachers. It contains
about 700 Practical Problems suitable for First,
Second and Third Classes in Public Schools. It is
very carefully graded, and each principle required to
be taught is introduced in logical order. It receives
the hearty approval of Teachers and Inspectors.

Read their Opinions.

From **ALLAN EMBURY, Esq., Inspector, Peel.**

I have examined this little book of Arithmetical
Problems, and can give it an unqualified endorsement.
The questions are carefully graded, and are specially
suited to the wants of our over-worked teachers who
have not always the time to devote to the preparation
of exercises upon the various subjects of the school
curriculum. The questions are not stated in the form
of propositions; but their statement is incidental,
leaving the inner connection of the problems to be dis-
covered by the pupil himself; and in this important
feature lies their special adaptability as an educational
force. I heartily recommend this book to all teachers
wishing to economize time and labor in their prepara-
tion for ordinary school work.

From **E. TROUGHT, Esq., Teacher, Member County
Board of Examiners, Inglewood.**

I have examined with some care Practical Problems
in Arithmetic for First, Second and Third Classes, by
Mr. White, Edmonton. Without the slightest hesita-
tion I say that they are the best I have ever seen—the
best in selection, the best in grading, and above all, the
best for developing the reasoning powers of the child,
and for exercising his ingenuity. A special feature of
the grading is that principles which have been intro-
duced are being constantly made use of in the succeed-
ing problems which are in their turn introducing new
principles, so that the whole work may be said to be
one unconscious review. It is a great boon to
Teachers.
