# Sanitas Water Closet

#### THE SANITAS PATENT WATER CLOSET

Has the simplicity of the Short Hopper, all the sanitary advantages and conveniences of the best improved modern closels, and others peculiar to itself, in being anti-siphonic, quick-acting, self-sealing, free from spattering or waste of water, and, when property set, almost noiseless in operation.

The supply pipe between the cistern and the closet stands permanently full of water, and, discharging below the level of the standing water in the bowl, the ac-

tion is instantaneous and the noise of flushing is deadened, so that when properly set and with the cover down and toilet room door closed no sound can be heard from without. The water is held in the supply pipe by atmospheric pressure, and will instantly restore the trop seal should it at any time be lowered by comporation or siphonage.

The Sanitas Water Closet.
