

BLACKBOARD OUTLINE MAPS for HISTORY and GEOGRAPHY

No matter what you may be teaching in connection with geography and history, the Imperial Outline Maps will save you time and trouble. In addition to testing the children's knowledge of political and physical features, you can accentuate the grain producing areas, the magnitude of timber lands, where certain minerals are found, and numerous other important points relating to a country's commerce.

Similarly, you can illustrate history by indicating early discoveries, settlements, battlements, etc.

All of this is accomplished with a minimum amount of work on your part; in fact, you make the chalk talk, and it does so in a manner that leaves a lasting mental picture.

Write for new booklet entitled "Making the Chalk Talk," free to every teacher.

PRESTON DESK

This is the most important innovation of recent years in connection with school desks and does away with the fancy dust-catching and unsanitary standards of the old style. It places the Preston Desk on an equality with any sanitary school desk made, with the added advantage of considerably lower price. Write us, stating your requirements and we will gladly furnish a quotation.
