

Classics was the only course in '03 not represented in the fifty-cent seats in the Undergraduate Union Concert.

The evils of keeping bad company were amply demonstrated in a first year physics lecture one day last week. Somebody had pulled down the blinds and darkened the room completely, when Dawes, being a good boy, undertook to raise them again. But unfortunately, while he was still at the crank, Mr. Loudon came in and pounced upon him as a miscreant, caught at last, and took him aside for a private lecture. Now everybody knows why he is called "Daylight" Dawes.

Sayings of the ancients (obtained from the rusty tomes of Muddy York):

Oysters at 11.30 p.m. are superb!—R. D. K.

It is a pity study intervenes in our year work.—J. J. McM.

America's greatest contralto—oh!—J. L. McP.

The most noted ride in history.—G. F. N. A.

Hat smash! and ever since he's had a pane!—W. W. McL.

Man may die for home, but never for his boarding-house.—F. E. B.

An old, rusty, and perhaps battered warrior!—A. I. F.

The author of "The Seasons" has many charms for me.—R. J. H.

For the fair, it's the best physical culture I know.—H. M. P. D.

Oh! she's all right, no doubt about it!—S. B. C.

## THE ROYAL MILITARY COLLEGE.

There are few national institutions of more value and interest to the country than the Royal Military College at Kingston. At the same time its object and the work it is accomplishing are not sufficiently understood by the general public.

The College is a Government institution, designed primarily for the purpose of giving the highest technical instructions in all branches of military science to cadets and officers of Canadian Militia. In fact it is intended to take the place in Canada of the English Woolwich and Sandhurst and the American West Point.

The Commandant and military instructors are all officers on the active list of the Imperial army, lent for the purpose, and in addition there is a complete staff of professors for the civil subjects which form such a large proportion of the College course.

Whilst the College is organized on a strictly military basis the cadets receive in addition to their military studies a thoroughly practical, scientific and sound training in all subjects that are essential to a high and general modern education.

The course in mathematics is very complete and a thorough grounding is given in the subjects of Civil Engineering, Civil and Hydrographic Surveying, Physics Chemistry, French and English.

The object of the College course is thus to give the cadets a training which shall thoroughly equip them for either a military or civil career.

The strict discipline maintained at the College is one of the most valuable features of the system. As a result of it young men acquire habits of obedience and self-control and consequently of self-reliance and command, as well as experience in controlling and handling their fellows.

In addition the constant practice of gymnastics, drills and outdoor exercises of all kinds, ensures good health and fine physical condition.

An experienced medical officer is in attendance at the College daily.

Five commissions in the Imperial regular army are annually awarded as prizes to the cadets.

The length of course is three years, in three terms of 9½ months' residence each.

The total cost of the three years' course, including board, uniforms, instructional material, and all extras, is from \$750 to \$800.

The annual competitive examination for admission to the College will take place at the headquarters of the several military districts in which candidates reside, in May of each year.

For full particulars of this examination or for any other information, application should be made as soon as possible, to the Adjutant General of Militia, Ottawa, Ont.
