## 5. INTERNATIONAL BUSINESS SKILLS

Canada is a land of immigrants. Employers will find pools of experienced workers who also offer fluency in foreign languages, knowledge of international cultures and business practices, and networks of business contacts in Asian, European, and American markets.

Canada is an effective bridge between North America and Europe. Canadian business practices and laws are a blend of American and European cultures. Canada's metric system of measurement means that Canadian manufacturers can readily meet requirements for European standards and measures.
