

#### EXPLANATORY NOTE.

As the date of June 1, 1918, was included in the Statutes some twenty years ago, it is suggested that this be altered to read June 1, 1938. Any unauthorized work which has been maintained prior to that date and concerning which no protests have been received could, if the owners so desire, be approved under Section 5 (2) of the Act. As the Act now reads, any work built since June 1, 1918, cannot at this date be approved.
