The **XXX** Saw Gummer and Sharpener

HAS NO RIVAL

FOR VARIETY, CAPACITY OR QUALITY OF WORK

... OR FOR ...

SIMPLICITY, DURABILITY, CHEAPNESS

Will take saws from 6 inches to 6 feet diameter; sets the saw forward one tooth at a time automatically; sharpens any saw (rip or crosscut) perfectly, giving the teeth any desired pitch or bevel, and making all the teeth exactly alike. Will sharpen 20 teeth in an ordinary saw mill in one minute, or 100 teeth in a shingle saw in four or five minutes. The cut shows outline of mill saw 54-inch diameter.

GILMOUR & CO.
Lumber Manufacturers and Dealers

TRENTON, ONT., 26th August, 1891.

F. J. DRAKE, Belleville, Ont.:

Dear Sir,—Your Patent Saw Sharpener is giving us good satisfaction. We average about 100,000 shingles per day, and sharpen the saws for both automatic and hand-feed machines with your Sharpener. As it keeps the teeth all perfectly uniform it must be easier on the machine and sawyer too. It causes also a great saving in files. We now use only about one ten-inch file per week. Before putting in your machine we used about six per week. As regards your Improved "XXX" Shingle Packer—it works first-rate and is the only machine we could get that would press tight enough. We consider it the best we ever had.

Yours truly,

GILMOUR & CO.
