## SIR JAMES ON CHAIRMAN LEITCH

"No such thing should be allowed  
as the carrying of freight, and I  
think it could be stopped."  
In these words Sir James Whitney  
uttered the severest condemnation of  
Mr. James Leitch, chairman of the  
railway and municipal board, that has  
yet reached the public. It is true that  
Sir James said complimentary things  
about Mr. Leitch's honesty and high-  
mindedness, but he gives Mr. Leitch's  
whole case away in these words, which  
are a virtual confession of the chair-  
man's stupidity. Sir James went fur-  
ther still:

"If Chairman Leitch is not upheld  
in the appeal, then, of course, the case  
is dropped, and the switches are not  
built as he had decreed." It is not  
necessary to add anything to these  
words of Sir James, except what he  
says of the other possibility:

"If the appeal upholds Chairman  
Leitch, then the matter can come back  
again to the board, which will have  
power, by a majority vote, to decide  
the question all over again finally,  
and to determine the length of the  
switches. As the leader of the govern-  
ment I tell you this fact."

But why, oh why, did Chairman  
Leitch render it necessary for Sir  
James to tell us this fact? Why did  
Mr. Leitch not abide by the majority  
rule in the first place, and do what Sir  
James and everybody but himself and  
the company concerned sees, "that no  
such thing should be allowed as the  
carrying of freight," and "it could be  
stopped"? Chairman Leitch was the  
man to stop it, but he would neither  
stop it himself nor let his colleagues  
on the board stop it.

Sir James' honesty in putting Mr.  
Leitch right will be appreciated, but  
the public will not be satisfied if Mr.  
Leitch is permitted to continue giving  
away the public rights as he has done  
in this instance. Nor should Sir James  
be compelled to carry such a political  
load out of mere friendship and gen-  
erous feeling as Mr. Leitch imposes  
upon him.

## THE MAN AND THE CROWD.

Dr. J. A. Macdonald has been speak-  
ing in Chicago, "The Man and the  
Crowd." Presumably he was the man,  
and his audience must have been of  
the uninitiated crowd if it swallowed  
what he told them about reciprocity.  
Dr. Macdonald declared, that it was  
the uninitiated emotion of the crowd  
that swayed the vote against reciprocity,  
and that the people are now sober  
and regretful. We all knew The Globe  
was blind politically, blind in the Ross  
election, blind on reciprocity, but we  
hardly dreamed that the darkness was  
so incurable. No wonder Mr. Rowell  
did not get a modern platform.

## YEILDING TO PRESSURE.

Toronto, Globe: The east and prop-  
erty owners who are willing to  
drop the Laird of Donlands "viaduct"  
in return for the building of a  
"bridge" across the Don into  
Rosedale are sensible people.  
The only viaduct that would benefit  
the "Laird of Donlands" in any way  
is the scheme of the Guild of Civic Art  
to run a viaduct on the slant across the  
Don Valley to join Wellesley-st.  
If The World had supported this  
scheme The Globe's smear might have  
had some justification. But The World  
has had no thought of anything but  
the interest and benefit of the citizens  
of Toronto, and has supported the  
plan of the city engineer because it  
is sensible and practical and necessary.  
The Globe is now the father of a new  
plan to delay or postpone the con-  
struction of the viaduct recommended  
by the city engineer. It suggests that  
a bridge be built from Danforth-avenue  
to Rosedale. Readers of The Globe  
know very well that this is exactly  
what the city engineer has recom-  
mended. The "viaduct" consists of  
that "bridge" into Rosedale striking  
the west side of the valley at Castle  
Frank, but with mugs sense than The  
Globe appears to be able to appreciate.  
The city engineer continues his viaduct  
to connect with Bloor-street so as to  
give a straight, direct thoroughfare  
across the city from the Humber to  
Scarboro Township.

The board of control will hardly be  
mistaken by the obvious "faking" of The  
Globe and its backers, who wish once  
more to set back the development of  
the Broadview-avenue district. The  
Globe's suggestion that farm lands  
five miles further distant are the real  
object of the viaduct is about as silly  
as some of its reciprocity arguments.  
"A high level bridge on the line of  
Danforth-avenue is greatly needed,"  
The Globe asserts. That is what The

## World has said all along: That is why

the engineer recommends the bridge  
he has designed from Danforth-avenue  
to Bloor-street. There is no more to  
be said.

## THE CENTURY HANDICAP.

One hundred years ago the United  
States had about 7,500,000 people, all  
settled east of the Mississippi River.  
The red man was still found in the  
State of New York and further west  
held undisputed sway in a practically  
unknown country. Travel was slow  
and dangerous, and immigration scanty.  
To-day the United States has a popu-  
lation of 90,000,000 and its progress in  
other directions is matter of common  
knowledge. But with this vast enlarge-  
ment in all departments of science, in-  
dustry and commerce, there has been  
no political advance. The republic has  
been bound in the shackles of a rigid  
constitution.

Canada has about the same popula-  
tion to-day as her neighbor had a cen-  
tury away. But they are spread over  
the fair face of the Dominion from  
ocean to ocean, and every year the limit  
of production is being pushed steadily  
northward. This new country has  
started, not from the point where the  
United States stood, but with all the  
benefit and advantage of its successes  
and failures. Canada, too, has no iron  
bound constitution under which provi-  
sions intended to protect the people are  
now the instruments of their oppressors.  
With greater opportunities, Cana-  
dians can, if they will, overcome the  
time handicap of a century.

## BRITISH PENSIONS AND THE POOR LAW.

Old age pensioners in the United King-  
dom on March 31 last, the close of the  
financial year, numbered 807,461, as  
given in the fortieth annual report of  
the local government board, issued ten  
days ago. The operation of the scheme  
has resulted in a marked decline in the  
number of aged paupers, there being  
over 47,000 less on the roll at Jan. 1 of  
this year over that date in 1910. It  
has been found that payment of the pen-  
sions quarterly has in many cases de-  
feated their object, the recipients not  
spending them properly. Arrangements  
have been accordingly entered into with  
the army council, whereby army pen-  
sioners, where necessary, are paid quar-  
terly in advance to the guardians and  
issued by them in weekly instalments.  
During the year 1910, orders were is-  
sued to send 534 orphan or deserted  
children to Canada at a cost of \$387.  
Reports from the Dominion to the num-  
ber of 1909, showed that emigrant chil-  
dren are generally doing well. Under  
proper regulations no objection can be  
taken to this class of immigrants. Health-  
y children in a Canadian environ-  
ment and carefully and sympathetically  
trained, enter into active life under  
the best of auspices and with the  
requisite knowledge of local conditions  
to make eventually valuable citizens.  
There is plenty of room in Canada for  
many years for those for willing work-  
ers and a Canadian education is for this  
a good preparation.

## PEAT FUEL SAVES EXPENSE.

The World recently called attention  
to the success attending the experi-  
ments conducted by federal government  
officials at Alfred, near Ottawa, for  
the utilization of peat fuel. The mat-  
ter is of special interest in this pro-  
vince, dependent as it is on imported  
coal, and it is therefore pertinent to  
refer a report forwarded to The London  
Times by the Dublin correspondent deal-  
ing with the value of peat for indus-  
trial purposes. He states that a 400  
horse power boiler was some little time  
ago installed in a linen factory at For-  
tudo, County Anagh. Using peat  
fuel, it has been found that with an  
outlay of \$28.80 a week, the same energy  
was developed as would have been ob-  
tained by an expenditure of \$68.30 a  
week on anthracite coal.  
In addition to this direct saving, the  
correspondent states that the new pro-  
cess has the further advantage of ex-  
tracting tar from the peat to the ex-  
tent of 5 per cent. of the total weight of  
the fuel. An equivalent of from 30 to  
35 per cent. is obtainable from this by-  
product, thus reducing the weekly cost  
of peat fuel to \$20.40 as compared with  
\$68.30 coal bill. If these figures can be  
repeated in proportion in Ontario, there  
is evidently room for the use of peat  
fuel, and as The World said the other  
day, it may become even a greater boon  
than that of hydro-electric light and  
power. The provincial government de-  
partment should take this matter up  
and initiate a plan that will allow the  
new processes to be investigated and  
utilized for the public benefit.

## Elsewhere in Anglo-Saxondom the

jury is expected to try the prisoners,  
but in the United States the process is  
reversed, and the court tries the jurors.

## DOCTOR MAKES FAST TIME

Special C.P.R. Train Does a Mile a  
Minute Stunt to Save a Life.

In order to perform a critical opera-  
tion Dr. W. J. Jamieson of Lennoxville  
was conveyed from Montreal to his  
home town by a special C. P. R. train  
last Friday, which covered this dis-  
tance at the rate of 55 miles an hour.

The distance between Lennoxville and  
Montreal is 110 miles, and the spe-  
cial left at 1 o'clock sharp, reaching  
Lennoxville at 3:25 p.m., in spite of the  
fact that over 15 minutes were lost in  
transit between these points, and the  
C. P. R. officials are proud of the re-  
cord.

## RED MOTORS, MORE BOXES,

ADDED TO MAIL SERVICE

## City's Postal Facilities Greatly In-

creased—Eighteen Sub-Po-  
stices Now.

Did you see those big red motor cars  
yesterday with "Royal Mail" painted  
large on the side of them?  
If you didn't see one yesterday,  
you'll surely see one today.  
They're part of the new arrangements  
which have been made here to facilitate  
and improve the collection and deliv-  
ery of mail, and in the future the citi-  
zens of Toronto will receive a much bet-  
ter service.

The city has been divided into eight-  
een new postal districts, and sub-po-  
stices will receive all the mail in the  
district, and mail for the immediate  
vicinity of the post office. At this  
point, the rest being conveyed to the  
head office by motor car, where it will  
be sorted and sent to its destination.  
Over 225 new mail boxes have been  
installed. Yesterday four motor trucks  
and 34 wagons were in operation, and  
it will be a much faster collection of  
mail will be possible.

## SALOONS IN MONTREAL

CALLED 'GRAVE SCANDAL'

Dominion Alliance Calls on Com-  
missioners to Cut Off Some of  
the 1,061 Licenses.

MONTREAL, Nov. 20.—The Domini-  
on Alliance are entering upon a new  
campaign against the liquor traffic in  
view of the approaching session of the  
board of license commissioners.  
The secretary of the Dominion Alli-  
ance, Mr. John H. Roberts, to-day is-  
sued a statement which is in part as  
follows:

"To-morrow the board of license  
commissioners will begin its sittings  
for the purpose of considering appli-  
cations for licenses for the sale of  
intoxicating liquors during the year  
commencing May 1, 1912. In view  
of the approaching session of the  
board, I most earnestly and solemnly  
appeal to the license commissioners  
to give the citizens of Montreal, espe-  
cially the tempted poor some relief  
from the intolerable conditions that  
prevail as a result of the over-licen-  
sing of our city."

"No other city in Canada has so many  
licenses for sale of intoxicating  
liquors as Montreal. The over-saloon-  
ing of this city amounts to what is  
nothing less than a grave scandal of  
immense magnitude.  
"It will show how far we are behind  
the rest of Canada if a comparison is  
made between the number of licenses  
in Montreal and those of other cities.  
The next largest city of Canada has  
only 1,000 licenses, while the next  
largest city of Canada, with a com-  
bined population of 1,000,000 has  
only 800 licenses, or one to every 124  
of the population. The city of Mon-  
real, with a population of 250,000 has  
1,061 licenses, or one to every 234  
of the population."

"The statement, including a table giv-  
ing population and number of licenses  
of Canadian cities: Toronto retains its  
title as 'Toronto the Good' having  
only one license for every 231 inhabi-  
tants, as compared with Montreal's 440,  
Ottawa's 1181, London's 1188, and Que-  
bec's 711."

## PRINCESS LAI ELOPES

Glamor of Footlights Lures Away  
Mother of China's Emperor.

SAN FRANCISCO, Cal., Nov. 20.—  
Princess Lai, mother of the baby em-  
peror of China, and wife of the prince  
regent, has eloped with an actor, Yung  
Shu Lu, according to Chinese news-  
papers received to-day. A number of  
newspapers published in China refer  
to the "disgrace" that has come to the  
royal family, but only one Hudson Bay  
paper, the largest newspaper published  
in China, gives the princess' name  
and an account of the elopement.  
The "mother of the emperor," the  
paper says, fell in love with the actor  
and corresponded with him for some  
time. She then fled with him, and the  
paper draws the conclusion that the  
princess believed that the Manchus  
cause was lost and decided to flee.  
The princess is said to have taken a  
fortune in jewels with her and to be  
living with Yung in Mukden.  
An actor and a barber are classed  
with the lowest of castes of China, and  
Chinese here said to-day that the  
elopement of the princess was the  
greatest disgrace that could come to  
the Manchus dynasty.

## Winter Attractions at Niagara Falls.

A pleasant place than Niagara  
Falls at which to spend a winter week-  
end would be hard to find. Easily  
reached by a short journey over the  
Canadian Pacific's scenic line via Wel-  
land, one is landed at Victoria Park  
and, convenient for the hotels  
plan, it is to charter a steamer to Hud-  
son Bay, and the neighborhood has  
its summer beauties. Fast trains  
leave Toronto at 7:50 a.m., 8:30 a.m., 5:20  
p.m. and 7:30 p.m. City Office, C.P.R., 16  
East King. Phone Main 689.

## HUDSON BAY EXCURSION.

OTTAWA, Nov. 20.—William Beech,  
pioneer settler at Fort Churchill, on  
the Hudson Bay, who is in the cap-  
ital, is discussing a proposal to de-  
velop the possibilities of the Hudson  
Bay region by conducting an excursion  
to Fort Churchill next summer. The  
plan is to charter a steamer to Hud-  
son Bay, and the neighborhood has  
its summer beauties. Fast trains  
leave Toronto at 7:50 a.m., 8:30 a.m., 5:20  
p.m. and 7:30 p.m. City Office, C.P.R., 16

## TRIAL.

Before Britton, J.  
McKinley v. Graham—L. T. Barclay

## (Whitney) for plaintiff; H. L. Ebbels

(for party) for defendant, executors;  
H. C. Macdonald for defendant, Har-  
per. An action by Ann Charlotte Mc-  
Kinley (formerly A. C. Harper) for ad-  
ministration of her father's estate, fail-  
ing of accounts, and an order against  
executors in respect of any devastate  
or breach of trust committed by them.

Judgment: The case which the plaintiff  
seeks to make is that as the testator  
died prior to March 4, 1881, all his real  
and personal estate, notwithstanding  
the disposition thereof by his will, de-  
volved upon and became vested in the  
defendants, executors, upon an ex-  
press trust to pay the debts and lega-  
cies, and the contention is that in such  
case the statute of limitations does  
not apply. The plaintiff's contention  
in my opinion is wrong. The action  
should be dismissed with costs of ex-  
ecutors to be paid by plaintiff, and with  
costs of defendant, Charles Harper,  
brother of plaintiff, if demanded by  
him.

Before Falconbridge, C.J.; Riddell, J.;  
Letchford, J.  
Miles v. G. T. R. Co.—F. McCarthy  
for defendants; W. G. Thurston, K.C.,  
for plaintiff. A motion by the G. T. R.  
Co. for leave to examine R. H. Greer,  
one of the arbitrators, the examination  
to be used upon appeals from the  
award now pending before this court.  
Motion argued. Judgment reserved.

Judgment: Whereas in the present case  
there is a very large sum awarded and  
no reasons whatever are supplied, it  
seems to me that the court in appeal  
must be satisfied that the arbitrator  
has made a materially benefited by  
the award. We give no decision as to  
whether the arbitrator can be also  
compelled to make such disclosures, as  
we are informed that he is willing to  
do so, nor as to the extent to which  
the examination should go. We think  
the arbitrator may be examined. Costs  
of motion and of examination to be in  
the appeal.

## Court of Appeal—Chambers.

Before J. A. MacLennan, J.A.; Mac-  
laren, J.A.; Meredith, J.A.; Magee,

tiff. J. A. Murphy (Cayuga) for de-  
fendant. An appeal by plaintiff from  
the judgment of Letchford, J., of May  
10, 1911. At request of counsel, case  
placed at foot of list.

the estate from the judgment of the  
arbitrator. Parties apply to have placed  
at foot of list to order.

Haverson, K.C., for Milne. G. F. Shep-  
herd, K.C., for the township. An appeal

option bylaw of the township. Argu-  
ment of appeal resumed from Friday  
concluded. Judgment reserved.

McCarthy, K.C., and J. McCarthy, for  
plaintiffs. H. Cassels, K.C., for defend-  
ant. An appeal by plaintiff from the  
judgment of Sir Donald, J., of March  
10, 1911. An action by plaintiff, a cor-  
poration of Florida, U.S.A., to recover  
and compensation for their attorneys  
under a policy in defendant company  
with cost. Appeal argued. Judgment  
reserved.

Farquharson v. the Barnard Oil Co.,  
I. P. Farquhar, K.C., for appellant, the  
Canada Co. J. H. Edgar for Barnard  
Oil Co. C. H. Ritchie, K.C., for the  
Canada Co. and the Barnard Oil Co.  
from the judgment of the

This action was brought and is be-  
ing maintained to establish and an-  
nounce the rights of the defendants, the  
proposals of Alexander Farquharson,  
who was in his life time owner of  
lot 6 in 8th constituency of Township of  
York East, Kent.

The defendants in this case are the  
Farquharsons, sinking wells and mining  
shafts, erecting derricks and taking  
possession of natural gas, and an in-  
junction and damages were sought.  
The defendants in justification of  
their acts, pleaded the terms of a re-  
lease of land contained in the  
conveyance by the defendants to the  
Canada Co. of the lot in question to  
the Farquharsons, thru whom the  
plaintiffs claim their title.

The chancellor determined that the  
defendants were not entitled to take  
possession of the land in ques-  
tion, and that the natural gas prop-  
erty was under the land in ques-  
tion, and were entitled to the oil pro-  
ducts.

negligence of defendants, was run over  
by an electric car and had his left

be amputated, thereby crippling him  
for life.

fendants desire it. Election to be made
