BLIZZARD LIFTS PRICES OF CORN

Rural Crop Movement Likely to Be Further Curtailed.

Chicago, Feb. 28.—Blizzard conditions prevailing in the west tended to lift the value of corn and so too did apparently lessened chances that the hog price minimum would be removed. The market closed firm, 1-2c net lower to an advance of 2 1-4c with May \$1.25 1-2 to \$1.25 3-4, and July \$1.21 3-8 to \$1.21 1-2. Oats finished unchanged to 7-8c higher, and provisions unchanged to a gain of 50 Reports that the severest weather of the winter, including temperatures 10 below zero, had struck portions of the corn belt, put the bulls at a disadvantage thruout the day in the corn market. The reason was that eeding would be enlarged and the rural crop movement further curtailed. Among the most active buyers were dealers who had been confident that the hog price minimum would be removed overnight, but who had been disappointed and were facing prospects that the minimum would be continued until broader export outets for provisions furnished a set-off. Some transient depression, however resulted from misleading reports that farmers who had not seeded spring nied the benefits of the government guarantee. Oats borrowed firmness from corn.

These Issues and Paper Group Almost Monopolize Interest of Traders.

Montreal, Feb. 28.—The Montreal Stock Exchange interested itself today principally with the textile issues, the paper stocks taking second place, and outside of these two, there was very little feature to the market. After a long period of inactivity, Ames-Holden preferred came into sudden prominence today, persistent demand advancing the stock 43/2 points to 77½, with more stock wanted at that price, at the close. No rumors accompanied the advance in the price. This was the only feature of interest outside of the textile and power groups. Montreal, Feb. 28 .- The Montreal

BUSINESS IS DULL IN WHOLESALE DRYGOODS

Toronto reports to Bradstreet's that business in a wholesale drygoods way is quiet. Wholesalers, while reporting a slight increase in business last week, state that there is no getting away from the fact that trade is dull. House sales helped to swell business last week, but sorting orders are quiet, and as for orders for fall de-livery, they are very difficult to get. The merchant in the country cer-tainly does not intend to load up with a heavy stock, not knowing just what the future will bring forth. Rather he prefers to get rid of his present supplies, which, after all, is very good business, since the prices paid for goods now on hand were abnormal. However, wholesalers state that there is no tendency to easier levels as yet. Collections during the month of February have been very slow, and returns will not show up as well, it is
