Charge of Throwing Walker Off the Premises Dismissed by Magistrate.

The charge of assault preferred by William Walker against President Taylor, Directors Lang, Gadoway, Burke and Swan of the Canadian Wine & Spirit Company, arising out of a scuffle, when the plaintiff was thrown off the premises last week, the result of the dismissal of Magistrate Kingsford in the afternoon police court yesterday on the ground that the president of the company had a right to order Walker off the premises.

SIX MONTHS FOR BIGAMIST.

Sister-in-Law Has Four Husbands, He Tells Magistrate.

Alfred Middleton, an Englishman, charged with bigamy, admitted to Magistrate Denison that he had married a Toronto woman knowing that she had a wife and family in England.

"My wife's sister has four husbands, why shouldn't I have two wives?" he argued as the magistrate sentenced him to six months' hard labor in the Central Prison.

A public farewell was tendered Rev. L. W. Hill, P.A., and family by the Euclid Avenue Methodist church on Thursday evening. Grateful testimony was given concerning Mr. Hill's splendid work in connection with the building of the new church. A well-filled purse was tendered Mr. Hill and a beautifully framed picture of the Ladies' Aid to Mrs. Hill. Rev. Dr. Baker was tendered a reception as the new pastor. Broadway Tabernacle will be Mr. Hill's new field for the next two years.

Nose Broken at Old Fort. Corporal R. Spicer of the O. S. C. had his nose broken at the Old Fort yesterday morning. The accident occurred while Spicer and his companions were unloading a wagon of camp equipment from Niagara-on-the-Lake. A bundle of tent pegs was thrown through the window and struck him in the face, with the result stated.

Views of Hanlan's Point.

The ferry company are exhibiting two splendid panoramic views of Hanlan's Point and the athletic field at their Bay-street office. The pictures measure 41-2 x 11-2 feet and 8 feet 9 ins. x 1 foot and give a good idea of the general appearance of the place.

Don't think because you are a six-footer or because you have passed the two hundred pound mark that you cannot be correctly fitted, and your suit of clothes finished to measure in the Semi-ready store.

Ask to see the Type E Suits.

If you are tall and slim then you will pass by the stouter type of Semi-ready Suit and

Ask to see the Type C Suits.

There is a perfect fit for men of all physiques in garments that are as smart in style and of better finish than the more costly custom-tailor suits. No custom tailor can afford to hire the expert tailors who make the Semi-ready garments, and who fashion and finish them on the scientific physique type system.

WHO INSERTED THE AD IN A SCOTTISH PAPER?

Allan Studholme, M.L.A., Looking After Interests of Labor Men In Brantford.

Allan Studholme, M.L.A., came to Toronto yesterday morning from Brantford, where he has been looking after the interests of organized labor in the criminal proceedings against the Buck Stove Company. A despatch from Brantford says:

The case was the first of its kind tried under the statute referring to such cases. James W. Matthews, one of the striking stove mounters, charged Chas. Parker, secretary-treasurer of the Wm. Buck Stove Company, with inserting in The Falkirk (Scotland) Herald an advertisement for stove mounters and moulders intending to mislead by stating that there were no strike or labor troubles at the Buck works here. The advertisement in question appeared in the name of Alexander Caven, steamship agent of Glasgow. W. J. Lee, of Toronto, solicitor for the Trades and Labor Congress, appeared for the complainant and G. D. Heyd for the defendant.

The members of the Buck firm, Mr. Charles Parker the secretary-treasurer, and two of the firm's stenographers, testified that they had no knowledge whatever of the advertisement in question. They had or known of any communication with Caven, the secretary of the Employers' Association of the Manufacturers' Association of Canada with reference to the matter.

When cross-examined, Wm. Buck was about to give his surmises as to how the advertisement got in the Falkirk paper, but Magistrate Woodruff ruled the question out.

Mr. Lee in addressing the bench, stated that there was no case on the part of the Buck firm, and consequently the case was dismissed.

In legal circles, as was intimated by Mr. Lee, the action was brought under the Dominion statute of 1905, Ed. VII, ch. 161, section 5, and is the first case coming under this statute that has been tried in Canada. The amendment to the Shipping Act makes it a criminal offence for any communication in a paper with a view to inducing workmen from Britain to strike, to be false or misleading.

Who inserted the advertisement in the Falkirk paper, the Bench is still inquiring. The matter, however, may be still further probed, as Mr. Lee secured a copy of the evidence to send to Scotland.

Mr. Studholme intends to begin proceedings against such cases recently passed by the Imperial parliament at the request of the Dominion government.

Five Hundred Dollars Disappeared. KINGSVILLE, Ont. June 28.—On May 30 Ernest Brown, a well-known local man, who has been in the town, who in turn gave it to his driver, Clay Cooper, to deliver to Edward Liddle, the agent at the Port Marquette Railroad. Liddle denied that the stage driver said he had. Wilson has made good the amount.

Thousand Islands and St. Lawrence. Many who annually take in this trip consider the month of June the best time of the year. You can leave Toronto at 10:15 p.m. in the Pullman sleeper via the Grand Trunk and the morning make connections at the Port of the Thousand Islands for a trip thru the St. Lawrence River. Pull in the morning at the Thousand Islands. Tickets on sale to July 1. For tickets and full information call at city office, northwest corner of King and Yonge-streets.

Dominion Day. The Grand Trunk will issue round trip tickets at single fare to points on the route of the Muskoka Navigation Company, the Trent Valley Navigation Bays Navigation Co. and the Lake of the Islands Navigation Co. and Northern Navigation Company to Parry Sound division only. Tickets on sale to July 1. For tickets and full information call at city office, northwest corner of King and Yonge-streets.

Public Library Institute. The first meeting for the Brantford district of the Public Library Institute will be held there on Thursday, July 11. A good program has been assigned for the afternoon and evening sessions.

The King of Birds. In Berkshire we call the tom-tit the king of birds, says a correspondent in The Country Gentleman. The birds one day agreed that the one who could fly the highest should be the king of birds, so they all tried in turn. The lark rose higher than most, but he soon got tired and had to descend. Then the eagle soared far above the rest, and he thought he was certain to be the king; but a little bit had hidden himself beneath the eagle's wing, and when the eagle could rise no higher, the tit flew out from under his wing and mounted higher still, so from that time he has been the king of birds.

Ice Drivers Will Strike. NEW YORK, June 28.—A strike of ice wagon drivers in the employ of the American Ice Company has been determined upon to take effect immediately. The strike, if successful, will be the first of its kind in the history of the ice business in this country and abroad. According to the statistics of temperance organizations, he persuaded by 10,000,000 persons to sign the pledge. He was born in Ireland in 1836 and served in the Union army through the civil war.

The "Apostle of Temperance." Francis Murphy, the "Apostle of Temperance," became active in campaigning because of falling eyesight. He has been in the temperance field for 26 years. In the time he addressed more than 15,000 meetings in this country and abroad. According to the statistics of temperance organizations, he persuaded by 10,000,000 persons to sign the pledge. He was born in Ireland in 1836 and served in the Union army through the civil war.

Good! Canada Coming to Front in Furniture Making

Total Output of 175 Factories About \$8,000,000—Import Quantity of Fine Lumber.

Canada now contains some 175 furniture factories. These factories are valued at nearly \$8,000,000. They employ nearly 7000 hands and distribute annually more than \$2,000,000 in wages. Their annual output is valued at nearly \$8,000,000.

Furniture making in Canada has been coincident with the evolution of the Canadian home, says The New York Commercial. A generation ago the majority of Canadians lived in the country. Simple and sturdy, the average country home meant to buy a dozen chairs, two bedsteads, two tables—one for the kitchen and one for the dining-room, whenever the family was one—and occasionally one also for the parlor, if that also happened to exist. A cupboard served for the storage of the primitive furniture factory was an immense task-developer. The home-made or village-made article was solid and substantial, but it lacked finish. The manufacturer employed skilled labor and division of labor. A degree of more greater cost than the plain article made in the old-fashioned way in the country the evolution of the furniture factory began at rather an earlier Canadian people were learning how to furnish homes.

Canadian Homes Well Furnished. After a few decades of home evolution the direct economic relation between the home and the furniture factory became established. The parlor became a fact in the family house and the drawing-room in the city and town. To-day the best city homes of Canada will compare favorably with the best homes on the continent. As there was more grandeur per capita than in older and smaller countries, and as building materials were then cheap, scale. This meant more furniture, more head of population. To-day an average town home of nearly every home in the country is better furnished than the furniture of these homes, employing a great number of Canadian hands and still manufacturing largely from Canadian woods.

As regards art, furniture, so rapidly has the demand outgrown the supply that manufacturers have been compelled to go abroad for the highest grades of woods and veneers which cannot be procured in Canadian forests. In former years people were satisfied with maple, elm and beech. Now, mahogany, oak and walnut. Normally such material would not have been so readily available, but Canada's real and the abroad, most of it into ships, and the walnut once against, used for fine fences and log houses. Only three years ago a farmer in Kent County, Ont., a farmer who confessed to the writer that he had been born in a log house built of solid walnut.

Large Importations of Wood.

In 1904 Canada imported for purposes of manufacture as follows: Saved boards, \$74,779; lumber, \$63,372; veneers of wood, \$148,222; chestnut, gumwood, hickory and other woods, \$42,110; mahogany, \$138,487; oak, \$149,577; rosewood, \$23,827; Spanish cedar, \$4630; walnut, \$37,773; teak, \$97,478; ebony, etc., \$4,673.

These imports are for all purposes, and not specially for furniture making. When bulk is taken into account, combined, was used for home furnishings, also for export building, etc.

With the recent enormous production of furniture in Canadian factories there is a danger of over-production, to cope with which factories have been running on slightly reduced hours. This does not affect the manufacturers of springs and mattresses, iron and brass bedsteads and office furniture. In all still an expensive tendency. In general, the furniture industry is in a state of expansion.

WEARS WHITE DRESS SUIT.

The white dress suit, Mark Twain's favorite, has broken out in Chicago. It appeared for the first time on the person and presence of Millionaire Benet John Parson, at the June fete of the Indiana Society, which was held at Pleasant Home, Parson's mansion in Oak Park.

The dress suit was a real affair, except that it was pure white, faced with white. It was long in the tails and short in the front, and was an indication of having been made by a tailor under instructions from the wearer. It was accompanied by a wonderful waistcoat of pale cream satin, embroidered with delicate, diaphanous roses and leaves and vines.

John Parson was very happy to have it on. It was clearly to be seen that he wore it from choice. The white dress was one more thing that he had thought of and it had made good from the first.

The King of Birds. In Berkshire we call the tom-tit the king of birds, says a correspondent in The Country Gentleman. The birds one day agreed that the one who could fly the highest should be the king of birds, so they all tried in turn. The lark rose higher than most, but he soon got tired and had to descend.
