Not too far away to remind you of the heed for fall goods. The closest reminder comes home to us in the arge importations that are crowding in upon us, the lids of boxes coming off as quickly as dexterous hands can remove them. There is advantage in different ways in securing new dress goods before everyone gets crowded with work-a good time now to consult your dressmaker. Some of the prettiest things we have offered shoppers at any time are among the dress goods and silks. We are going to tell you a little about them to-day.

BLACK SILKS-ALL NEW.

There is no reason why we should not increase the already large business done in the silk section. Business moves there by its own momentum, for "Simpson's for Silks" has become a proverb. The department is directly as you enter the Yonge-street doors-ample space, the best light and all appointments such as you would find in a high-class silk store. COLORED-NEW HENRIETTAS-BLACK There are some lines of dress goods that one never tires of and henriettas and tweeds are first among them. The earliest openings of our dress goods show large stocks of both lines. You would suppose we were doing a wholesale business, so great are the quantities. The fact is our retail business runs in volume into the biggest figures. A word of new henriettas and tweeds, which start the ball rolling at prices 35 per cent, less than are going anywhere
