KING STREET Opposite the Postoffice, Toronto, Canada's Modern Departmental Store

There's lots of merchandise sold that's guaranteed to be all right. But is it?

There's a good deal of guarantee business-sometimes excessive, sometimes reluctant. It means nothing. Shop words are shallow.

This giving money back is often made under the hope that you won't want it back. But with us it's vastly more than a question of store service. It means good merchandise. A guarantee that didn't guarantee drives you away.

So that when a written guarantee gets on to merchandise it's liable to be good merchandise-if the seller's

For years we've guaranteed Black Silks. Given it in writing when desired. We advance now one step. Make the silk better and the guarantee stronger. Pick out the best three makes from half a hundred and then put the guarantee in writing, so as to make it more than a salesman's persuasive talk.

There's a principle in this guarantee. It is honesty and liberality.

It is something above "the average practice." s enterprise well held, and we're the first to do it.

Black and colors in the new weaves for spring are here, ogether with a wide range of novelties.

And prices! Let's not say anything about them now. Save this: You're safest here. Money is on call. And prices are lower.

Ladies' Fancy Stripe Silk Parasol, with steel rod, in brown, violet, green and other shades, with fancy handles, for \$2.75 and 2.25

ronto, was opened by Mr. and Mrs. J. H. Stewart, and consisted of Scriptural readings; also selections from the Christian Science text book, "Science and Health, with key to the Scriptures," by Mrs. Mary Baker Eddy, the founder of this interesting science. Instructive Address. A paper tracing the growth of Christian Science in Toronto was read by Mr. John O'Conner, Clerk of the First Church of Christ, Scientist, and was followed by an address by Mrs. Stewart, who dealt enleify with the spiritual import of Christian

Science.

Before the corner stone was swung into place, a copper box, containing a copy of the Christian Science text book, "Science and Health," copies of the Bibie and The Christian Science Journal, the addresses of Mrs. Stewart and the clerk of the church were placed in the cavity. The stone was formally laid by Mrs. Stewart, who is the leader of the work here, and who was the first to introduce this peculiar belief into Toronto. Ladies' Black Silk Parasol, with white stripe and steel rod, with black handle, special \$2.75, \$2.50, \$1.85 and

Toronto.

The new church, which occupies the site of the old Reformed Episcopal Church, on the corner of Simcoe and Caer-Howell-streets, will have a seating capacity of 650, it will be finished in oak, and will have an organ, supplied by Lye of Toronto. Ladies' Black Silk Parasol, with fancy

Not a Cent of Debt.

To The World Mr. John O'Conner, the clerk, gave some interesting facts in connection with the Scientists and their methods of building: For example, that no Christian Science church has ever been dedicated with a cent of debt upon it. The site of the present new church was purchased last July, and the funds for carrying on the work of building are fortheoming every week, so that as the building progresses it is paid for. It is hoped that the building will be finished and dedicated in May. Asked whether he had any doubt of the money materializing for the work, Mr. O'Conner smillingly assured The World that there was no reason whatever to doubt its being supplied. story of Progress.

The ceremony, which marks a red-letter

day in the history of the Scientists in To-

The work of the Scientists was introduced in Toronto ten years ago by Mrs. Stewart, who was a personal stadent of Mrs. Mary Baker G. Eddy, the founder of the religion; its members then could be counted on the singers of the hand, and to-day this First Church boasts over 400 members. These, however, are by no means the only Christian Scientists in Toronto, for there is a second branch, which meets on Yongestreet, of whose plans Mr. O'Conner knew nothing. street, of whose plans Mr. O'Conner knew nothing.

Speaking of the spread of Christian Science, Mr. O'Conner said that in America alone there are over 1,000,000 believers, and the work is spreading in France, Germany, and in England. Although they worship in churches, the Scientists have no preachers; the service is very simple and dignified, consisting of hymn singing, silent prayer and reading from the Bible and from their great text book "Science and Health." These-are alternately read by the first and second readers, who also take up the International Sabbath School lessons and elucidate them according to the Bible and "Science and Health."

The management of the church is under a board of directors, and, although Mrs. Eddy is the head and founder of the movement, Mr. O'Conner said that the Scientists are not under any personal subjection to her.

Asked for the main beliefs, Mr. O'Conner said that those uniting with the First Church of Christ, Scientist, must subscribe to the following tenets and rules, laid down by Rev. Mary Baker G. Eddy:

1. As adherents of truth, we take the Scriptures for our guide to eternal life.

2. We acknowledge and adore one Supreme God. We acknowledge His Son and the Holy Ghost, and man as the Divine image and likeness.

3. We acknowledge God's forgiveness of sih in the destruction of sin, and that shand suffering are not eternal.

4. We acknowledge the atonement as the efficacy and evidence of divine love, of man's unity with God, and the great merits of the way-shower.

5. We acknowledge the way of salvation demonstrated by Jesus, to be the power of demonstrated and the resurrection of human faith death; and the great possion to remove this fear from human minds, to billites and living energies of divine life.

6. We solemuly promise to strive, watch and understanding to selze the great possion to remove this fear; it is the work of Christian Scientists of remove this fear; it is the work of Christian Scientists of remove this fear; it is the work of Christian Scientists of remove the faise sense, to remove this fear; it is the work of Christian Scientists of remove the faise sense, to remove this fear; it is the very and the fear; it is the very in the fear; it is the very and the fear; it is

ACCESS TO MOUNT PLEASANT.

street car accommodation to Deer Park, with the effect of defining the position of the Township Council in the matter, to hat might be almost considered a cer-

of Avenue-road and Heath-street to Yonge-street, the members of the Council were unanimously of the opinion that no obstacle should be placed in the way of obtaining the railway communication; they were also of the same frame of mind as regards the maintenance of the railway roadbed, and decided that it was entirely out of the pro-vince of the township to be responsible for its keeping up.

vince of the township to be responsible for its keeping up.

The present condition of the route showed the absolute necessity of some improvement, and if the railway is built the traveled portion of the road will be placed in good condition by the municipality. This will mean considerable outley, and in doing this the Council contend that they are doing all that they can legitimately be asked to do.

Discussed by the Council. The meeting of the Council was held at the Deer Park Hotel. The whole of the members were present, with Reeve Duncan presiding.

Among those at the meeting were: Messrs.

F. Turner, Dr. Parkin, Rev. T. W. Paterson, S. T. Humberstone, J. Armstrong, C. Edwards, L. Baldwin, J. Fisken, Father Rohleder, Dr. Armstrong, G. Wood, A. May, A. Hoskin, A. Gibb, E. Suider, B. Sinclair, C. Mitchell, J. T. Burnside, F. C. Snider, Mr. Wilmot and P. Faiby.

By Which Route? cipally on the question of the route to be taken.

Mr. Mitchell advocated St. Clair-avenue as being most central and supplying accommodation to both Mount Pleasant and St. Michael's cemeteries.

Father Robleder, on behalf of St. Michael's Cemetery Trust, urged that the route taken be as near to that burial ground as possible. He hoped the Council would see their way clear to ailow the railway to come, no matter by what route. The visiting of the cemetery by young people would prove of great moral benefit to them, and it was on account of that that he had advocated the Sunday cars.

Mr. J. Armstrong favored the Heathstreet project, and thought the Street Railway Company would carry out its pledge and ultimately produce the line nearer to St. Michael's Cemetery.

Another Inspection.

Another Inspection.

Dr. Parkin, Mr. A. Hoskin, Dr. Armstrong and Mr. A. May also gave their views respecting the more desirable location, after which the Council and delegation spent a

A Vehicle Not Kept in Good Repair

Is Liable to Break Down Suddenly and Bring Its Owner to Grief.

That is the way with the human machine; it is very apt to break down suddenly when it is not kept in good order. Colds are responsible for much of the lowered vitality that affects so many individuals, because, in nine cases in ten, those colds are neglected and allowed to run their course. You cannot cough much without doing yourself an injury. The mere act of coughing sends the blood flying to the lungs, producing a slight congestion. Repeated slight congestions weaken the lung substance. This is a fact, so do not pride yourself on your strong lungs and think a simple cough will not affect them,

strong lungs and think a simple cough will not affect them, and that you are safe because there is "no consumption in your family." Consumption in your family." Consumption is a communicable disorder; irritated air-passages and congested lung-substance invite the bacilli tuberculosis to enter and take possession. This is true as gospel. If you have a cough, stop it before it has irritated your throat and air-passages, by the faithful use of Shiloh's Cough and Consumption Cure, the favorite remedy in the States, having been on the market these past fifty years.

Mr. Alex. Lewis, of Frogmore, La., says: "Some time ago I suffered terribly from a hacking cough, and the doctor said I would get consumption if I let it run on. I commenced taking Shiloh's Consumption Cure regularly, and am now completely recovered."

Your money will be returned to you by your druggist if Shiloh's fails to relieve. If you use Shiloh for one cold, I am convinced you will always have it in your family medicine chest ever after, and I know you will never begin another winter without having it handy. Sold in United States and Canada, 25c., 5oc. and \$1, and in England, 1s. 2d., 2s. 3d. and 4s. 6d.

couple of hours surveying the proposed streets of travel.

The regular meeting of the Township Council will be held on Monday, when definite steps in inaugurating the railway may be made if the company are prepared to accept the conditions now definitely laid down by the Council.

Victoria, B. C., March 29.-The budget. new roads and other service, or the revenue ex-tended the ordinary expenditure, but was not enough to make up for this. The re-ceipts are expected to amount to \$1,453,000, the largest in the history of the province,
