THURSDAY MORNING

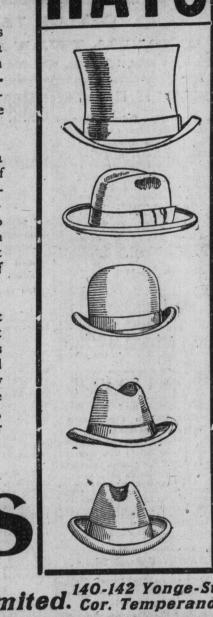

Buying hats by thousands and selling thousands is the very simple reason why you can get a finer hat for less money at Dineens than in stores were smaller trade necessitates small purchases. Can you think of a hat store in all Canada showing such evidence of an immense trade—as you see at Dineens?

The great hat trade at Dineens also means a greater and always a fresher assortment of styles, because more tastes are to be pleased-and the more people we please the more business we do. And our constant invitation is to come and see the new hats we keep bringing in from every noted English and American hat fashioner as fast as a new style or a new fad of fashion is ready to come out.

There are hats at Dineens this week that were not out last week, and they all come direct to Dineens from the makers. The man who is revolving the question of a new hat in his mind should look through the profusion of correct new styles and incomparable qualities which are shown in the store this week at 1.50, 2.00, 2.50, 3.00 and the highly-favored hats at higher prices—all here to suit all tastes.

Synodal Mistake.

Rev. Dr. Somerville plainly stated that it was a mistake to send to the churches a question implying that family worship is a thing of the past. He did not believe in the accuracy of the reports to this Synod, nor in the Assembly's report last year, to the effect that family worship was being generally neglected.

Rev. Mr. Young took the opposite view.
Rev. Mr. Hamilton, Mimico, believed family worship had seriously decreased, from the changed conditions of life and the decline of spirituality.

Rev. Mr. McGillivray did not believe the official report that the family altar is in ruins. His experience in Toronto among the working classes convinced him that family worship is on the increase.

In closing the discussion, the Moderator expressed his disbellef in the Assembly's report.

Altogether there is a falling off of 460 in the total membership. Rev. Mr. Rawlings, in moving the adoption of the report, deprecated too many organizations and pointed out the causes of the discouraging report. Evening Session.

The first business in the evening was the adoption of the following report of the committee appointed on the previous evening in reference to the Lord's Day Act:

The Synod regrets that certain judicial decisions under the Lord's Day Act by their definition of the word "traveler" in the Act, by declaring that the Act does not apply to corporations nor to employes of corporations, and by limiting the application of the Act to the classes of persons specified therein, have rendered the Act practically inoperative for the prevention of many unnecessary forms of Sabbath labor.

The Synod is gratified to learn that the Government of Ontario have promised to submit a special case to the Court of Appeal in order that the mean ing of the Act in some of its main provisions may be authoritively determined.

Should the Act as finally interpreted be still found to the interpreted Tributes were paid to the memories of the late Dr. Cochrane, Dr. King, and Dr. Kellogg, each of whom formerly belonged to the Synod of Toronto and Kingston.
