## The Manufacturers Life on its 21st birthday had over \$54,000,000 of insurance in force-a record never yet equalled by any other Canadian Company. It took this Company just five years to increase

its net premium income from one million to two million dollars per year.

Great progress in many life companies is accompanied by an increased rate of expenses (as compared with premium income), but this Company, despite the fact that the results given above are unequalled in the history of Canadian Life Insurance, has for years had a constantly decreasing rate of expenses.
