INDUSTRIAL CRISIS
OVER IN DENMARK

Agreement on Settlement Reached at Meeting of Employers and Workers.

Copenhagen, April 5.—The agreement for a settlement of the industrial crisis was reached at an early hour today at a conference between representatives of the employers and workers. Later a general meeting of the representatives of the labor unions decided to call off the general strike.

The Social Democrats, commenting on the settlement, says that King Christian was compelled to bow to the firm will of the people, and it declares the road now is clear for the democratization and socialization of the state. None of the bourgeois papers appeared this morning.

The first act of the new ministry was to comply with the socialist demand that general amnesty be granted all political offenders now in prison.

The official list of the new cabinet, made public today, is as follows: M. Friis, premier and minister of defence; Oscar Scavenius, minister of foreign affairs; M. Somme, minister of agriculture; H. P. Prijs, minister of trade; M. Vedel, minister of the interior; M. Schroeder, minister of justice; M. Kofoed, minister of finance; M. Jensen, minister of labor; M. The sultan, it is said, is undoubtedly against the Nationalist forces and their demands, and the new cabinet probably will be composed chiefly of members of the Liberal party, which is willing to accept any peace terms, in the hope of retaining the sultan in Constantinople.

YORK COUNTY AND SUBURBS

POULTRY FANCIERS' OFFICERS RESIGN

Members Decline to Sacrifice President in Interest of Peace.

Owing to some cause unexplained, several officials and members of the executive connected with the Danforth Poultry Association resigned in a body, and the vacancies were filled at the regular monthly meeting held in Playter's Hall, Danforth avenue, last night.

Nelson M. Brimston, president who occupied the chair, in reviewing the situation, stated that he was a member of the organization from its inception, seven years ago, and thought that the resignations of the officers who were mostly chartered members and always good workers for the association, might have caused the resignation of himself as president, and his management of the association's affairs.

"I have always worked to the best of my ability for the association's benefit, and rather than that the officials should be lost to the organization, I will tender my resignation," said Mr. Brimston, who forthwith handed his resignation in writing to the secretary.

A somewhat lengthy discussion ensued in which several members took part. J. Sheppard pointed out that, in his 20 years' experience in various poultry associations, dissensions were the cause of many of the best poultrymen resigning their memberships. "Five years is practically the life of any active official in a poultry association," declared Mr. Sheppard.

Mr. Brimston's resignation was eventually refused by a majority vote of the association.

The following officers were elected to fill the vacant offices: J. Pantling, first vice-president; W. Tobin, second vice-president. Six members were elected to the vacant offices on the executive committee.

The report of the annual show held last November was submitted by the show secretary, Roy E. Brown, and receipts were \$571.70, with expenditures of \$325.05, leaving a balance on hand of \$246.65. MARKHAM IN DARKNESS
HYDRO WIRE BROKE
Easter Maud Disagreeable by Wind, Slush and Rain.
Those Markhamites who were fortunate enough to have new Easter hats last Sunday decided to either go to Florida or else wait here and re-box their bonnets for the time being and pray for more elements weather. The cause was an unhappy combination of snow, wind, rain, slush and darkness, the latter caused by a break in a ground wire of the newly-constructed Hydro power line to the village, which has only supplied light for four days.

The storm started out like a belated January blizzard and three inches of snow fell in as many hours. Rain followed the snow and the more religiously inclined part of the village returned home from the Easter services thru three inches of slush and darkness.

The Hydro electricians were informed of the disconnection and the break was located and repaired yesterday afternoon. All housewives toward the coming of the twenty-four hour service as a great boon, as power from the local generating plant was formerly turned off at 11 p.m. and the electric fire controls used by housewives during two afternoons a week. The only complaint in the new service is occasioned by a slight flicker in the light which is very noticeable at times. It is in the present time the Hydro supplies 105 volts whereas the old plan was capable of producing 115 volts. However, according to Hydro authorities, this difference will be made up shortly.

While the Democrats are expected to vote almost solidly against it, it will have solid Republican support. The passage by the senate also is predicted by Republicans, also Democrats declare the president will veto the measure. Mr. Kahn called attention to the fact that, according to the terms of the treaty, the Coblenz bridgehead, held by American troops, will be evacuated after four weeks. Germany fulfills all her obligations, while the Cologne bridgehead, now held by British troops, will be handed over after five years.
