CIVIL WAR VETERAN

Tells How to Retard the Infirmities of Old Age
"I am seventy-seven years old, and for thirty-five years have worked on the P. C. & S. L. R. R. Also a Civil War Veteran. I suffered from a general nervous breakdown and would have to bed for a day at a time. When visiting friends in Bradford, Ohio, an old doctor recommended that I try Vinol. That very day I bought a bottle and have done me a world of good, built me up so I feel stronger in every way, and have gone back to work again, and I want to recommend Vinol to any old comrade or aged person who needs strength for it is a grand medicine. The reason Vinol is so beneficial to very elderly people is because it contains the medicinal elements of fresh cod livers, without oil, peptonate of iron, beef peptonate and a mild tonic wine.

WANT NAME CHANGED

Hake, Fish Dealers Say Suffer Because Burdened With that Appellation
Boston, Nov. 15—It has been decided that hake, which have been hake for centuries, must have their name changed. But up to date no fitting appellation has been found and the dealers of the Boston Fish Pier are still trying to locate a proper name.

Hake are members of the gadidae family like the same as cod, haddock and pollock, but, say the dealers, owing to their name, have always been looked upon as poor relations. Their name has proved a detriment socially and financially. Their flesh is whiter than any other groundfish, and they possess more excellent food qualities, the dealers say, but all to no avail while burdened with the name of
