**LOCAL NEWS**

**IS ILL IN HOSPITAL.**  
J. P. O'Brien, barber, of Peters street, is ill, and, on advice of his physician, removed this morning to the General Public Hospital.

**SAND POINT PROTECTION.**  
Signs designating the location of the fire alarm boxes in the sheds on the west side of the harbor have been erected by the city harbor department.

**PLANT DAMAGED.**  
Commissioner Frink said today that the crank shaft of the city asphalt had broken and that some sidewalk repairs which were being carried out would be possibly delayed.

**DANCE PRIZE WINNERS.**  
At a dance held in the G. W. V. A. hall on Friday evening, the prizes for the waltz were won as follows: First, A. Ramsey and Mrs. Cripps; second, David McKay and Miss Ina Donovan; third, John Bryson and Miss Alma Ramsey. A nice programme of music was given by Mrs. Ernest Sargent and Robert Carr. W. Stearns acted as floor manager.

**HORSE IN TROUBLE.**  
The fire department was called on Saturday morning to assist in rescuing a horse which had one of its hind legs caught in a catch basin in Erin street near Peter's laneway. The horse went through the grating and it was only with difficulty that it was released from its dangerous position. It suffered only slight injury.

**INSPECTED NEW SURFACE.**  
While enroute after the memorial service in Parnhill yesterday, Mayor Schofield and Commissioners Jones and Bullock inspected the new surface being laid in the Marsh road by the Carrie Construction Co. One side has been entirely completed and the other is finished from Cooper's corner to the McAvity plant. The track section is still under way. It is being laid with fine water, to complete the work this week.

**WOULD BUY OUR APPLES.**  
The secretary of the Board of Trade has received a letter from a firm of potato shippers in Havana, in which they say that they have been importing potatoes from New Brunswick for years and have found them as good as any on the market until lately, but that they have a large quantity of the shipments have arrived in bad condition. The letter also says that they are on the market for the importation of apples. The imports this year were declared far below normal due to the prohibitive price of the California fruit. The firm thinks that there is a good chance for maritime produce exporters in the Havana market. Latest prices are quoted as follows: Gravenstein, \$4.50 a case of from 175 to 200 apples; Ben Davis (which is the most popular kind in that country), \$12.50 a barrel; "Delicious's Rosette," \$7 a case of from seventy-two to ninety-six; \$6.50 a case of from 113 to 125.

**SUGGESTION RE UNEMPLOYMENT**

**Resolution Adopted at Meeting of Methodist Ministers This Morning.**

The Methodist Ministerial Association of the city met this morning with Rev. H. B. Clark in the chair, and Rev. J. M. Wright acting as secretary. Others present were Rev. Messrs. R. G. Fulton, Neil McLaughlan, Dr. George Steele, J. K. King, E. Thomas, William Lawson, and G. M. Ross, president of the New Brunswick and Prince Edward Island conference.

Mr. Ross briefly addressed the association in relation to the work of the district and in regard to the session of the district, which is to be held here soon.

Rev. Dr. Steele gave a report of a recent meeting of the church union committee in Toronto, and told of the progress made toward full confirmation of the union.

The following resolution was passed by the association: "The Methodist Ministerial Association of this city, being impressed with the peculiar situation which has arisen because of unemployment and fearing that the coming month may make the problem more acute, we respectfully suggest to the mayor, that if the city does not feel warranted under present circumstances in undertaking some great public works to relieve the situation, that the question of unemployment, and to discover if possible, where relief may be found.

**CARRIED OFF SUNDAY MILK**

It had been enough to pinch a man's bottle of milk on a week-day when he can slip around to the corner grocery and replenish his supply, but to run off with his quota on a Sunday morning is the height of depravation. There is a householder in Elliott row who suffered this inconvenience yesterday and his difficulties were increased by the fact that he had visitors for lunch.

The bottle of milk was delivered some time before ten o'clock and was noticed by the lady of the house, who decided that she would bring it in later. When she did go after it she found cause to regret her procrastination. The father of the family was not in a very pleasant frame of mind for a few minutes. He said that a milk thief was bad enough at any time, but one who carried out his work on Sunday was a "dirty dog."

**BRITISH WAR MOTHER PHILADELPHIA'S GUEST**

Philadelphia, Nov. 14—Mrs. Amelia Emma McCudden, British war mother, was Philadelphia's guest today. An elaborate programme has been planned. On arrival day, she laid at the tomb of the unknown soldier a wreath of flowers—Great Britain's testimonial to the U. S. heroic dead.

**EXCHANGE TODAY.**  
New York, Nov. 14—Sterling exchange firm. Demand, Great Britain 395 3-4. Canadian dollars 87-8 per cent discount.

**WILL USE THE CLIFF ST. SCHOOL**

**Boys in the Morning; Girls in Afternoon.**

**One Session Arrangement While St. Joseph's is Being Repaired After Disastrous Fire Early This Morning.**

On account of serious damage sustained in a fire in St. Joseph's school this morning, it has been found necessary to close the school for repairs for about a month. While some of the rooms can be fixed up in a couple of weeks, the whole work cannot be completed in that time.

Arrangements were made today whereby the girls who have been deprived of a school by the fire will receive their lessons in the boys' school in Cliff street. The boys will attend as usual at 9 o'clock in the morning and will be dismissed for the day at 1 o'clock. The girls will go to school at 1.30 p.m. and remain until 3 o'clock.

The damage done was more serious than at first thought. The rear section was gutted from the cellar to the roof, while the front section was also badly damaged. The flames worked up through the partitions and burned large holes in floors and ceilings, while the heat caused large sections of plaster to loosen and fall off the walls. The entire building was saturated with water and this combined with the flames, practically destroyed the entire interior. The building was insured for \$12,000, but it is estimated that it will take a considerably larger sum to repair the damage sustained.

This morning hundreds of children wended their way to school, the vast majority ignorant of the fact that the building had been rendered uninhabitable. They were given permission to remove their slates, books, etc., from the desks, but many of them had been destroyed, and some found them partially burned or water soaked. Some of the pupils who occupied rooms in the rear section lost everything in their desks.

**EXPRESS THEIR APPRECIATION**

(Continued from page 1.)  
Mr. Thornton said he was making arrangements to remove a pole there.

Commissioner Frink said he planned having a pole which is out in the roadway set back close to the curb. He suggested that when the money was available a pair of ornamental poles be placed on each side of the fountain.

Regarding an application by the Phonograph Salon to erect an electric sign on a pole outside their place at King square, Dr. Frink said the council had no authority to allow for the erection of signs on poles.

The matter was referred back to the commissioner.

The commissioner also reported that permission had been given to Robinson's clothes to erect an electric sign in King street. Application for permission to erect an electric sign, made by F. W. Armstrong, Charlotte street, was referred to Commissioner Frink and the city engineer for report.

**Proposed Street Work**

Commissioner Bullock asked if the commissioner of public works would consider the removal of a large shoulder of stone at the head of Rodney street on the west side.

Dr. Frink said the department had a crusher there last year and there were so many complaints that the opportunity to remove it to Millidgeville road was taken advantage of. He said he would bring in a report.

To the mayor he said that both crushers were now shut down but he could have one of them placed on the west side and would give employment to at least twenty men.

He moved that the road engineer cause a survey to be made preliminary to the widening of Millidgeville road between the Spar Cove road and the Board's Head road. He said this would provide for some work for the unemployed.

Speaking to the resolution Dr. Frink said it was disheartening to find that the official census of the city was 46,500, while in 1911 it was 47,000. He did not wish to think that the city was finished. He said the Millidgeville road area was the place for the city to expand and would allow the city to get away from the side hill proposition which, with its r.r.-ing was, had been and is a source of expense and worry constantly.

Mr. Bullock was of the opinion that a programme of improvements suggested for next year should be brought in before any definite work was attempted. He said that the Westmorland road, Haymarket square, Prince William, Princess, Duke and Somerset streets all required attention as well as some streets on the West Side.

The West Side streets, Commissioner Frink said, were in fairly good shape and there had been a great deal of complaint. He said plans for next year included the Prince William street, Market square, Haymarket square, Princess and Duke streets work. He said he would re-submit the programme.

The mayor said he approved the Millidgeville road plan but he thought the money should be spent first in the main part of the city.

Commissioner Thornton said there were many streets in the north end which required attention.

Commissioner Frink said the Westmorland road had been in bad condition for years. The sidewalk also was bad and would require attention.

Commissioner Jones said the sewer from Church street around the Market square might need renewal this fall or next spring before pavement was laid. The motion was carried.

Prince William Street  
Commissioner Frink said that the condition of Prince William street between Princess and King was bad.

Commissioner Jones said the water and sewerage department had filled up several times cast made in the street for service pipes.

Mr. Thornton thought the public works department should make the repairs necessary to keep the street up and charge it up to the water department.

Commissioner Bullock thought the gutter should be remedied before a general complaint was made.

Mr. Jones said his department would look after the repairs this afternoon.

**10 ONLY SERGE DRESSES TO BE CLEARED TODAY**

You could not wish for better values than these. Some of these dresses were formerly priced as high as \$38.00 but are now marked down regardless of cost. Be on hand early to get your size.
