ICEBERGS.
THE PERISHAN MONARCH DISABLED AND PROCEEDING UNDER SAIL.

Eighteen Icebergs Passed in Part of One Afternoon—A Steamer and Bark Trying to Get Clear of Field Ice.

Boston, Feb. 7.—The steamer Iowa, Captain Owens, at Boston today from Liverpool, reports Jan. 31st signalled the British steamer Perishan Monarch, Capt. Bristow, from London Jan. 17, and Portland, England, Jan. 20 for New York, with loss of her propeller and heading East under sail.

The Iowa offered assistance but it was declined. The wind was blowing strongly from the westward and the disabled steamer was making only about 3 knots. Feb. 3, lat. 44.03 N, lon. 48.27 W, steamer Iowa passed from 2.30 to 4 p. m., eighteen icebergs. On the same day at 4.30 p. m., entered field ice two miles in width and extending north and south of right.

SECRETARY TRACY'S LIFE WORK.
He will not give up Public Life.

New York, Feb. 7.—General Isaac S. Cutler, Secretary Tracy's brother-in-law says, "There is no possibility that Secretary Tracy will give up public life. Of course he is greatly exhausted and will take a long time to bring him around, but he will go on with his life work. He says that if he could not go on with the work which he had begun in the navy he could not live."

His friends including President Harrison, James S. Stimson and General Jordan, have advised him that every consideration demands that he stay at his post and he will. At a time like this occupation for his mind will be his salvation.

THE EMPEROR'S SCHEME.

ENGLAND WOULD SEND A DELEGATE TO AN INTERNATIONAL CONGRESS.

M. Beaulieu, the Political Economist, Characterizes the Proposal as Impractical, Dangerous and Ill-Advised.

PARIS, Feb. 7.—Sir Charles Dilke, in an interview last night, in regard to the Imperial rescript of the German Emperor said:

"If the English government is invited to send official delegates to such an international Congress, I think the invitation will be accepted. Already her hours of labor are shorter than those of those on the continent, and her constant tendency to establish a 48 hours week system of present in vogue in Australia. You know the eight hour law for mines comes in before Parliament this session, and is very likely to be passed. On the whole, I think there is no doubt that England will look favorably upon Germany's proposition whenever it is made."

M. Leroy Beaulieu, one of the great political economists of the day, was also seen on the same subject.

He said "I regard the proposal of the German Emperor as impractical, dangerous and in every way ill-advised." He said "This is a young man with only a superficial knowledge of the vast question he has undertaken to deal with. Perhaps in his ignorance, he has confidence in the money he suggests, but you may be quite sure that Prince Bismarck, who is pulling the wires behind the scenes is simply maneuvering to catch the votes of his socialistic enemies in the approaching elections. But that is precisely where the measure is dangerous, in that it thus openly recognizes the socialists, he is unwittingly strengthening their cause if not immediately at least in the not distant future."

The scheme is so impractical that the scheme it needs only a moment's consideration to see that it is utterly absurd. You might as well try to establish uniformity in the money he suggests, but you may be quite sure that Prince Bismarck, who is pulling the wires behind the scenes is simply maneuvering to catch the votes of his socialistic enemies in the approaching elections. But that is precisely where the measure is dangerous, in that it thus openly recognizes the socialists, he is unwittingly strengthening their cause if not immediately at least in the not distant future."
