Of late a large amount of timber has been cut from tracts of land on the Esquimaux road owned by Robert Ward and the Hudson's Bay company, and all attempts to stop it or catch the offenders have failed. He was convicted and discharged. The witnesses were directed to warn all in the locality to leave the timber alone.

He formerly held the pastoral of the First Baptist church of Seattle, but of late has not attached himself permanently to any church. He has been heard here several times and is pronounced a very good speaker by all who have had the pleasure of hearing him.

The tramway company concedes the right of way to the city in the discharge of their duty; and the city agrees to indemnify the company in the event of the incorporation in their bill of a distinct obligation to permit other companies crossing their tracks; and stipulate that their rails on the city streets shall be at all times subject to the approval of the city engineer.

The schooner is overdue at Yokohama but advices are expected on the next steamer. There has been a story going the rounds among the seafarers about the sinking of an unknown vessel in the Pacific south of the Hawaiian Islands. The Enterprise story sprang from that.

George Stevens got ten years, McIntosh five and Griffith one. Stevens made an eloquent plea for himself, but intimidated dissatisfaction with the judge. The sentence he openly swore vengeance against the judge. He is desperate, and may believe he will try to escape on the way to the penitentiary.

—Harper's Weekly of February 24th contains a photograph of the Downie cabin, it stands in the Midwinter fair grounds at San Francisco. This cabin was originally built at Downieville in the early days of the late Major Downie, who was the founder of that place. The cabin is draped in black out of respect to the memory of the brave old pioneer miner and explorer.

The present list of speakers is as follows: The association party of a social character. The membership is steadily increasing, and there is little doubt that a powerful organization will be built up by the time the next Dominion election is held. The Liberals propose to take the stand on tariff reform and honest administration, as opposed to the Conservative policy of high taxation and booting, and they expect to present the questions at issue in such a way that the voters will be able to make a choice between an anti-protectionist city sending protectionists to represent it at Ottawa may be terminated forever.

—When horses and cattle are kept in stables most of the winter and are fed on dry food, they are apt to get out of condition and the spring finds animals that are not thriving, many have actually lost during the winter and have to do all their "licking-up" and turn out to grass. It was discovered shortly after noon, reported to the police and an hour after removed to the Victoria hospital. The body seems to be that of a child probably about a month and weighs about half a pound.

—Dr. Lang is this afternoon holding a post mortem examination on the body. The question of whether the child was ever alive will be settled and this evening at 7:30 there will be an inquest at the provincial police station. The police pays for it as the body was found below high water mark.

—NANAIMO.

Nanaimo, March 2.—Yesterday Constable Dougal brought up Louis Joe, an Indian, on a charge of aggravated assault on his mother-in-law. Joe was at the Kookish camp, and lured to free of a fire, in consequence of which a quarrel ensued with his mother-in-law.

Nanaimo, March 5.—The meeting called at Northfield by the opposition is said to have been very successful as far as the number of speakers and the number of those present are concerned. The fact that the use of the hall at Wellington was denied the provincial members did not deter a large number of the residents of Wellington journeying to Northfield to listen to the speakers. The speakers were: Messrs. Keith, T. Foster and C. C. McKinnell addressed the meeting, which was somewhat similar to the one held here. The speaker Hall and Maxwell's behavior in the house were fully explained, and it tended to further increase the dissatisfaction with the reign of the Davis government.
