

## NOVA SCOTIA.

## Haligonians Once More Taken In.

## Death of Mrs. Wm. DeWolfe at Amherst.

## DIGBY.

Digby, June 12.—Three criminal cases were disposed of by the supreme court today. The Melanson girl, charged with the concealment of birth and the body of her child, pleaded guilty to the latter charge and was sentenced to one month's imprisonment. Messrs. Jones and Roscoe, Q. C., for the defence.

In the case of Harry Peck, charged with attempted rape, the jury brought in a verdict of "guilty." Mr. Shreve, Q. C., on behalf of the prisoner, moved for arrest of judgment on certain grounds to be submitted to the full bench. The motion was allowed, meanwhile Peck remains in jail here. The grand jury failed to find a bill against Leslie Trask, charged with perjury. Mr. Copp prosecuted in all three cases.

## AMHERST.

Amherst, N. S., June 11.—The marriage of Stanley Smith, one of the leading young merchants of Parramatta, to Miss Bella McKay, took place at the residence of the bride's parents, Nappan, this morning. About sixty guests were present. Rev. W. H. Evans, president of the Nova Scotia conference, performed the ceremony. The presents were numerous and elegant, including a handsome clock, a clock, accompanied by a very flattering address from the Nappan Epworth league and the Methodist Sunday school, of which the bride was a member and teacher. The couple took the afternoon express for Halifax.

Amherst, June 16.—Julia, wife of Wm. DeWolfe, who recently came to live here from St. John, died yesterday after confinement, aged 23 years, leaving a babe eleven days old. The deceased was a daughter of the late John Chandler and was married thirteen months ago in St. John. Her remains were taken last evening to St. John for interment.

## TRURO.

Truro, June 13.—Richard Craig, sr., president of the Truro Athletic club, and an ex-member of this town, fell from a horse this morning on the Prince street sidewalk, injuring his head, and was unconscious for a time. He was taken home, and has since been confined to his bed, but is in a fair way of recovery.

Mr. Rhodes of Rhodes, Curry & Co. was in town yesterday in connection with work on the new building that firm have in course of construction for R. L. Black & Co.

A stylish portico is being built on the main entrance to Prince street Baptist church. The grounds around the Immanuel Baptist church have been filled in places with a considerable quantity of earth, and are being graded, sodded, and tastefully fitted up.

Twenty-three hundred tons of water pipes are being laid in town this spring and summer. The work is going on under the supervision of Alexander Archibald, engineer.

A lively stable building was completed last week at Haystack street. It has been put up this spring by Boomer & McKenzie.

## ANNAPOLIS.

Annapolis, June 10.—A hotel man in town has got his head in a suit, a leading merchant for \$2,000 damages. It appears the druggist will not go to the hotel man's sample rooms and the latter says the former is hurting his trade and is keeping many travellers away from his house.

A young man fell down the other day and hurt his great toe and has retained J. J. Ritchie, Q. C., to bring a suit for \$600 against the town.

An advent preacher from Massachusetts has the Academy of Music rented indefinitely, and holds forth there to small audiences.

The death of F. A. Hennigar at Middleton on Thursday afternoon is deeply regretted by his many friends. The deceased was a son of the late Rev. Mr. Hennigar, a Methodist divine of forty years ago. He was always a strong temperance man, and joined the Band of Hope when a boy, under the superintendence of Sir Leonard Tilley at St. John.

Annapolis is not a bad place for marriages, but it certainly takes the price for being the spot where love-sick swains delight to spend their honeymoon. On Wednesday we had seven couples.

A practical joke was perpetrated on one of Granville's citizens on Saturday by some Annapolis wags, which will teach him to hunt for a wife nearer home. This man has been bothering the life out of many of the girls, and though all refused his offers of marriage, he has persisted in pressing his case with other girls. On Saturday he was again going the rounds and the boys thought the time had arrived when to call a halt. A young man was dressed up in a woman's clothes and, being closely veiled, passed off for one of the fair sex. The "young lady" was asked to take a drive to Lake La Rose, a distance of eight miles to which she gladly consented. As soon as a mile was covered he began to press the all-absorbing topic on his mind and, with the lower part of the veil uplifted and his arm around her waist, she consented to be his wife. The sixteen mile drive was at length over and not till evening did he know of the joke played on him.

Halifax, N. S., June 11.—The particulars of a terrible accident come from Margaret's Glen, a few miles from Halifax, which occurred yesterday afternoon. Mrs. Maher, who was her husband at the time was in the city. During his absence his wife started to drive some distance with one of her horses. A short time after leaving her home and while going down a hill, one of the horses broke, thus letting the cross-bar go forward against the horse. The animal ran away and Mrs. Maher was thrown out. She fell

on her head on a stone, meeting death instantly. Her neck was broken and her skull smashed in so completely as to expose her brains. She was fifty-two years old.

Halifax, June 12.—The American schooners Latona and Hattie D. Linnell arrived today from the fishing ground. They each have one hundred barrels of mackerel, and sail for Gloucester tomorrow.

The American journalists, seventy-seven in number, left Yarmouth by train this morning for Kentville and Halifax. The Dominion Atlantic provided two passenger coaches with special conductor for the visitors. They will stop over night at Kentville, where a dinner will be given them this evening.

A well known shipping man informed the Associated Press representative that a large new steamer will shortly be brought to Halifax if she proves satisfactory on her trial. The steamer is now in England and it purchased is the intention to put her on the route between Halifax, Boston and St. John, Nfld., for three fourths of the year. The remaining few months she will be used for carrying mail. Capt. Allan leaves for England on Saturday and will take the steamer from England to Copenhagen on a trial trip. If he is satisfied she will be purchased and brought here immediately. She will cost over \$100,000.

Halifax, June 12.—P. S. Archibald, chief engineer of the I. C. R., today submitted to the board of trade plans of the railway terminal facilities at Halifax. The government proposes to construct a wharf with loading facilities for two steamers at once, with coal trestles, etc., north of the present wharf. A brick freight shed over 800 feet long is to be built along the wharf front for the accommodation of both the Dominion Atlantic railway and the Intercolonial. The shed will be set back from the street so that water street may be widened from Cornwallis to North street. The board of trade expressed satisfaction with the proposals.

The Wanderers-Garrison cricket matches arranged for this season are off. The Wanderers will not play with the Wanderers because the latter refuse to allow officers to become members of their club.

Angus McGillivray, Liberal, was elected in Antigonish today to the seat in the local legislature vacated by Colin MacIsaac. His majority over Dr. Fraser is 239.

Halifax, N. S., June 14.—The Dominion Coal company's railway from Sydney to Louisburg was officially opened today and was declared by Provincial Engineer Murphy to be the finest piece of railroad in America.

While at work diving in Louisburg harbor today, a diver discovered the remains of an old French warship in a good state of preservation, and succeeded in bringing to the surface five small cannon. He saw a pile of cannon balls, which he will make an effort to get up tomorrow. This is a very valuable find, and will excite the greatest interest among the distinguished Bostonians who are now en route for Louisburg to dedicate a monument in commemoration of the capture of Louisburg in 1745 by Sir Wm. Pepperell and Sir Warren.

A reception was tendered the visitors by the Nova Scotia Historical society. Speeches were made by Hawland Pell, Hon. E. P. Wheeler of New York, a descendant of Sir W. Pepperell; Dr. Slater of Iowa, a descendant of Mr. Wheeler; Sir W. Pepperell; George E. Pomeroy, whose great grandfather was Major Pomeroy, in command of the Third Massachusetts regiment at the capture of Louisburg. Hon. A. G. Jones and other members of the Historical society made addresses. Mr. Wheeler laid particular stress on the fact that the object in erecting the Louisburg monument is not in glorification of victories over the vanquished, but in honor of the heroism of the French defenders of the town, as well as of the valor of the colonial conquerors.

The party leave for Louisburg tomorrow morning.

Halifax, June 15.—John Kunz represented himself as a "wealthy German," having just come into possession of a fortune of half a million dollars, through the demise of his father, St. Paul, Minn. Kunz was waiting the arrival of his mother and sister to start on a tour around the world. He put up at a fashionable hotel, obtained the entrance to a swell club and cut a big swath generally. After running up several large bills and borrowing indiscriminately from his new made acquaintances, Kunz suddenly decamped Saturday night, leaving his creditors poorer but wiser.

## THE LORD MAYOR'S BANQUET.

The great banquet to the Lord Mayor elect of London, Sir Joseph Renals, at which over 1,000 persons of the greatest prominence assisted, took place at the Guildhall, London, on November 9th, 1894.

The loving cup list included the Earl of Rosebery, Lord Tweedmouth, Earl of Kimberley, Lord Spencer, Lord Russell of Killowen, Earl of Cork, Lord Reay, and other equally distinguished persons.

The cup was drunk in the famous G. H. Munn & Co.'s Extra Dry, whose success and popularity in the United States has been so phenomenal in late years.

It can be inferred from the list of such distinguished guests that the speeches were listened to with interest by all present.

## NO LONGER VEAL.

An English clergyman was preaching in a country church in Scotland. He had as his subject The Prodigal Son. "And the prodigal son went away into a far country for years and years, and after years and years he came back to his poor father, and his poor father said unto his servants, bring forth the fatted calf, which has been kept for my son these years and years." An old farmer in the audience once could himself no longer.

"Yer a le'er. It wud hae bin a coo!" he exclaimed.—Rams Horn.

## BOSTON LETTER.

## Four Murders and Six Suicides in a Fortnight.

## The Lumber Market Generally Steady With an Encouraged Feeling.

## Fish Trade Very Quiet Just Now With a Great Scarcity of Mackerel.

## (From Our Own Correspondent.)

Boston, June 15.—Even since the beginning of the present month an epidemic of crime has reigned in this city and vicinity. The record is almost unparalleled in the police records since the present city charter was taken out. In addition to four murders within two weeks in Boston, there have been two or three fatal assault cases and half a dozen suicides. In other New England cities within the past week there have been two cases of murder and suicide together, two murders and three suicides. It is safe to say that this gruesome record has seldom been equalled in any other section of the country, and is surely a record breaker in New England.

Monson & Sons, the Cleveland fish dealers, whose nets were seized in Lake Erie some time ago by the Canadian patrol boat Petrel, have prepared a protest, and have appealed to the department at Washington this week, so that an international controversy will probably result. The Monsons claim that their nets were in American waters and were taken by force at the time. The firm also asked the United States government to determine, for the benefit of United States fishermen, whether Lake Erie is 54 or 60 miles in width at the point where the seizure was made. The Americans regard the settlement of this question as an important point, and will profit by it in fishing in international waters.

The maritime provinces will have a chance this year to exhibit their live stock by side with the stock of the Maine farmers and breeders. The managers of the Eastern Maine State Fair have been considering the question of allowing owners from the provinces to enter for some time, and a few days ago they arrived at a decision, which, although not as favorable to Canadians in the provinces named as it might have been, yet it will prove of considerable advantage. The managers offer for all blooded neat stock from the maritime provinces the same premiums that are given for stock at the fair to be held Aug. 20, 21, 22 and 23 at Bangor. The offer is made to induce stock owners in the provinces to exhibit at the fair. The premiums are awarded independent of the Maine premiums and stock from across the water will not compete with Maine stock this year at least. The fair will also give Canadians a chance to see what kind of farmers Maine men are and vice versa.

The Dominion Coal company will pay a dividend of four per cent, July 1. The money will be paid at the office of the American Loan and Trust Co., this city, to stockholders of record at the close of business today.

The Mining Association (Ltd.) of Cape Breton has declared a dividend of 12 3/4 per cent, in spite of heavy losses by bad debts in Newfoundland. The company gets most of its coal produced in Nova Scotia from the Cape Breton Co. and from its own mines near Sydney. It also does a big Newfoundland business.

H. L. Chipman of Halifax and Manager M. P. Plant of the Plant Steamship line were in the city this week on business connected with the improvement of the service. Manager Plant received the intelligence this week that a co-heir to his father's millions was born a few days ago in Baltimore.

F. Fowler of Moodus, Ct., has suggested a way to get rid of New England's abandoned farms. He suggests that all those not taken as country residences by wealthy city men be offered for sale as game reserves.

Mr. Fowler, who is himself a wealthy landowner, has a number of farms near East Haddam, Ct., and has built wire fences around them. He is encouraging all kinds of game that can be found in that region and has begun experimental farming. Mr. Fowler's scheme is a novel as well as a profitable one, but his idea is to set apart game reservations after the English plan. His suggestion of course is only intended for the wealthy.

B. I. Weeks, who for many years was superintendent of the New Brunswick Division of the Canadian Express Co., died this week at North Adams. He was 50 years old and leaves a widow and two brothers.

R. Sutherland of Kentville and Sir William H. Hingston, a recently knighted M. D. of Montreal, were in the city this week.

The lumber market continues generally steady, with the feeling encouraging. Spruce cargoes were sold at rather easier prices a few days ago, but the strength of the New York market prevent any serious break. The slight change was due to a large number of arrivals from the provinces, which placed a large quantity on the market at once. Orders continue to come in and most of the eastern mills appear to have all the business they can handle. Car lumber is still selling at combination prices, and a sort of dealers reporting success in maintaining rates. Building operations are more extensive than last year and the principal demand is for spruce.

Shingles are steady, with laths and clapboards in fair demand. The latter are scarcer this week; they have been for some time, and prices are inclined to strengthen. Hemlock and pine are quiet. Quotations are as follows:

Spruce—Cargo lumber from the maritime provinces, spruce plank, 2 x 8 inches and up, \$15 to 15.50; spruce random cargoes, \$12.50 to 13; spruce boards, 7 inches and upward, \$12.50 to 13; floor boards, \$17 to 18; second clear, \$15 to 16; coarse spruce floor boards, \$10.50 to 11; laths, \$1.90 to

2; round wood, \$1.50; spruce frames by car, 10 inches and under, ordered, \$15; yard random, \$14; yard orders, cut to lengths, \$15; 12-inch frames, \$16; 14-inch frames, \$18; clear No. 1 floor boards, air dried, clipped, \$21; 4-foot extra clapboards, \$32; clear, \$30; second clear, \$25; laths by car, 1 1/2 inch, \$17.00 to 1.90; 1 1/2-inch, \$2.40.

Hemlock, etc.—Planed and buttled hemlock boards, car, \$12 to 12.50; random do, \$11.50; planed, cargo, \$10.50 to 11; extra standard cedar shingles, \$2.90 to 3; rough hemlock boards, \$9.50 to 10; shingles—clears, \$2.50; second clear, \$1.90 to 2; extra No. 1, \$1.75; No. 1, \$1.50.

Eastern pine—Coarse No. 2 stock, \$16 to 17; refuse, \$12.50 to 13; studs, \$8.50 to 9.50; rough edge stock, box boards, etc., \$9 to 12.50; extra pine sap clapboards, \$45 to 48; sap clear, \$35 to 40; matched boards, \$19 to 22.

The fish trade is very quiet just now and all dealers report a scarcity of mackerel. Fresh mackerel have been offered at good prices, but all arrivals have been quickly taken. There is no old salt mackerel arriving from the provinces and dealers report such fish remarkably well sold out. A few barrels of new salt mackerel have arrived from the provinces, but they were quickly sold and the market is still a waiting one. About 140 mackerel have been shipped in one barrel, and the rate has been \$15 per barrel, while the supply lasted. Pickled herring is quiet. Sardines are reported firm this week. New canned lobsters have made their appearance on the market. Fresh lobsters are only in fair supply. The following are the prices quoted at first hand for mackerel:

Fresh fish—Market cod, \$2 to 2.50 per 100 lbs; large cod, \$3 to 3.25; steak cod, \$4 to 4.25; haddock, \$1.50 to 1.75; large hake, \$1.50 to 1.70; small, \$1 to 1.25; pollock, \$1.50 to 1.60; steak pollock, \$2 to 2.25; large fresh mackerel, \$1.25 to 1.40; medium, \$1.00 to 1.20; white haddock, \$1.00; gray, \$1 to 1.20; chicken, \$1.25 to 1.40; roe shad, \$1 to 1.20; buck, \$1.00; bluefish, \$1.00; fresh eastern salmon, \$1.50; frozen do, \$1.00; fresh Oregon, \$1.25 to 1.40; live lobsters, \$1.00; boiled do, \$1.00.

Fish—Provincial extra mackerel, \$18 per bbl; No. 1, \$18; No. 2, \$14.50 to 15; No. 3, \$12; large Georges cod, \$4.75 per qt; medium, \$3.50; large dry bank do, \$4.50 medium, \$3.50; hake, haddock and pollock, \$1.50; medium scaled box herring, \$8; No. 1, \$7; longwise, \$6; N. B. and N. S. split herring, \$4 per bbl; large Scatterree, \$7; Labrador, \$5.50; Bay Shore, \$3 to 3.40; round shore, \$2.75; Newfoundland salmon, No. 1, \$20 to 22 per bbl; No. 2, \$18 to 19; Cape Breton fancy split herring, \$7 to 7.50 per bbl.

Canned fish—American sardines, one-quarter oil, \$2.75 to 2.85; three-quarter mustards, \$2.50 to 2.75; new sardines, \$3.15 to 3.25; new canned lobsters, \$1.85 to 1.95; lower grades, \$1.40 to 1.60; salmon, Columbia River, \$1.65 to 1.75; Alaska, \$1.20.

## BRITISH PARLIAMENT.

## The Behring Sea Regulations—The Earl of Jersey's Report.

London, June 13.—Sir Edward Grey, parliamentary secretary to the foreign office, replying to a question in the house of commons today said that the government of Canada was aware that legislation was necessary to replace the Behring Sea act which expires on June 30th, and some time ago it furnished the imperial government with full views respecting the amendments it desired. These views were carefully considered and the government intend to discuss at the Ottawa conference was still under consideration by the interior department committee, whose deliberations will be protracted as it has many matters before it which are of the highest importance to India and Australia.

The postmaster general, Arnold Morley, answering a question on the subject, announced that the Earl of Jersey's report respecting the mail question discussed at the Ottawa conference was still under consideration by the interior department committee, whose deliberations will be protracted as it has many matters before it which are of the highest importance to India and Australia.

In the house of commons this evening, during the discussion of a credit for building a railway and the protectorate in Uganda, Right Hon. Joseph Chamberlain wanted to know the intentions of the government regarding the French expedition on the Nile.

Sir Wm. Harcourt severely rebuked Mr. Chamberlain's provocative language towards France, which he said, was most dangerous to the world's peace. He denied that the government intended to extend control beyond Uganda.

Mr. Chamberlain repudiated any idea to be provocative, but had simply repeated the statement of Sir Edward Grey, parliamentary secretary to the foreign office, that a certain act on the part of France would be regarded as unfriendly towards England, and asked to be assured that steps were not being taken to this act.

The subject precipitated a long discussion and the closure was finally applied to end the debate. The credit was then adopted.

London, June 14.—A debate took place in the house of commons this evening on the second reading of the new bill for the regulation of sealing in Behring sea. Thomas Gibbons Bowles, conservative member of parliament from Lynn, Regis, asked whether Canada had consented to the arrangements embodied in the bill. He complained that while America had made restitution for the unlawful seizure of sealers, Russia had not moved in the matter. He moved an amendment against withdrawing of British protection from British subjects and subjecting them in time of peace to search and seizure by foreign naval officers. Sir Edward Grey, parliamentary secretary to the foreign office, replied that the Russian dispute was still under negotiations. Continuing, he said that the government had done everything to meet the Canadian objections consistent with executing the agreement with Russia. He believed that the restrictions imposed by the bill were only fair and reasonable.

Mr. Bowles' amendment was rejected by a vote of 87 ways to 11 ways. The second reading of the bill was postponed.

## The Loan Bill Aipped by the Lower House.

St. John's, Nfld., June 13.—The loan bill passed the lower house today, despite the efforts of the opposition, who contended that the interests of the depositors in the government savings bank were being sacrificed for the benefit of non-investors abroad. The bill provides for floating \$2,500,000 at four per cent in interest for forty years bonds and guarantees that the interest on the whole public debt, which, inclusive of this amount, makes \$12,000,000, and of the sinking fund, which is established in connection with this loan, shall become a first lien upon the revenue of the colony. The savings bank depositors have always had a preferential claim, but now it is proposed to place the guarantee to bond holders before the obligations to depositors.

A motion that the savings banks be placed upon equal terms with these preferential claims was defeated by the government, which argued that the position of savings bank depositors is now better than before, because of the added stability of the colony's credit.

The bill is likely to pass the upper house tomorrow.

## HELP IN OLD AGE.

As life wears on toward its hilt men and women feel the need of such a remedy as Hawker's nerve and stomach tonic to renew the vital forces and overcome the ills that come with advancing years.

It may be that youthful carelessness or real hardship has seriously effected the physical system, leaving a legacy of disease. In many cases the blood gradually loses its vitality, the nerves become perhaps a source of frequent torture, the digestion may be impaired, and life at times seem a real burden instead of a pleasure and delight.

The great restorative power of Hawker's nerve and stomach tonic aiding digestion, forming new and rich blood, invigorating the nerves and restoring the system generally to a state of healthful vigor, makes it a special favorite with those advanced in years. Whoever has given it a fair trial has found it to be in very truth a health restorer. It is sold by all druggists and dealers and is manufactured only by the Hawker Medicine Co. (Ltd.), St. John, N. B., and New York City.

Sydney, C. B., June 16.—The American party and Halifax friends arrived here last night and found quarters at the new Sydney hotel. The American visitors are delighted with the country and scenery. The weather is cold, the thermometer down to 45 in the shade. The hotel had to be heated all day. The Louisa celebration is the absorbing topic, and it is expected that a large number of people from this section of the country will go down to the ancient fortress. The train starts for Louisburg at nine tomorrow morning.

Imposed by the bill were only fair and reasonable.

Mr. Bowles' amendment was rejected by a vote of 87 ways to 11 ways. The second reading of the bill was postponed.

THE WEEKLY SUN, \$1.00 a year.

## WITH TEARS IN HER EYES.

She was thrown on the world. "Mardian heaven" and paged. Considerable truck was knocked off the world where she struck it. Before anybody had reached her she had risen and was swiftly leading her bicycle away.—Town Topics.

## "The Triumph of Love is Happy, Fruitful Marriage."

Every Man Who Would Know the Grand Truths, the Plain Facts, the New Discoveries of Medical Science as Applied to Married Life: Who Would Alone for Past Errors and Avow Future Pitfalls, Should Secure the Wonderful Little Book Called "COMPLETE MANHOOD" and How to Attain It.

"Here at last is information from a high medical source that must work wonders with this generation of men."

The book fully describes a method by which to attain vigor and manly power. A method by which to end all unnatural drains on the system.

To cure nervousness, lack of self-control, despondency, etc. To exchange a jaded and worn nature for one of brightness, buoyancy and power. To cure forever effects of excesses, overwork, worry, etc.

To give full strength, development and tone to every portion and organ of the body. Age no barrier. Failure impossible. 2,000 references.

The book is purely medical and scientific, useless to curiosity seekers, invaluable to men only who need it.

A despairing man, who had applied to us soon after wrote:

"I have at last information from a high medical source that must work wonders with this generation of men."

And another thus: "If you dumped a cartload of gold at my feet it would not bring such gladness into my life as your method has done."

Write to the ERIC MEDICAL COMPANY, Buffalo, N. Y., and ask for the little book called "COMPLETE MANHOOD." Refer to this paper, and the company promises to send the book, in sealed envelope, without any marks, and entirely free, until it is well introduced.

GRANGER'S CONDITION POWDER
