taken and a strict quarantine of arfected persons and families be main tained. When that is done the danger is reduced to a minimum, and the people may breather freely. Absurd stories are being circulated outside of St. John with reference to, the state of affairs here. The facts are rully stated from day to day in the press, and there is absolutely no ground for thinking otherwise. Outside of the hospital there are not half a dozen cases in St. John.

VISITORS FROM BRISTOL.

The Montreal Star says that F. B. Gruiestone, the general manager of the Bristol. Avonmouth and Portishead docks at the port of Bristol, who is now in Montreal, has been deputed by the corporation of that place to visit the Atlantic ports in Canada and the United States for the purpose of ascertaining what terminal facilities, the Atlantic ports in Canada and the United States for the purpose of ascertaining what terminal facilities, the ports on this side possess, and to discuss with ship owners and freighters and the heads of various railways serving these perts, the best methods of developing the trade between them and the ancient port and city of Bristol.

Mr. Girdlestone will doubtless visit St. John. A few years ago the possibility of a stsamship service between this port and Bristol was a live question. If Mr. Girdlestone can give us some general information on that point it would be well to give him a hearing, Bristol corporation has invested also 000,000 in docks, and will spend a much more to complete the system.

THE HORSE SHIPMENTS.

It is very grantfying to learn that the hogses for South Africa are all to be shipped from this port. The incident illustrates very clearly the fact that if St. John is to have its interest properly looked after the vigilance must be exercised by the people themselves. Had not the city council and board of trade raised an outcry, Hon.

THAT LONDON SENSATION.

LONDON, Nov. 8.—The hearing of the charge against Theodore and Laura Jackson (Ann O'Della Diss DeBar) was

Thursday. Street hawkers are coining money by the sale of a paper entitled "Horrible Disclosure in the Horos Case."

The clerk of time court informed a representative of the Associated Press that enough witnesses have been summoned to keep the case going for weeks.

The court was crowded Thursday but there were no women present. Laura Faulkner continued her testimony. It was largely a recitation of that given and it was vile enough to satiate the most depraved sensation seeker.

Loia Montes, the beautiful friend of King Louis of Bavaria more than haif a century ago, whom the notorious Diss. De Bar woman, now on trial in London, claims as her mother, was buried in Greenwood cemetery. New York, in 1861, and there is nothing on the small headstone to identify it as marking the grave of this well-known woman. The inscription reads:—"Mrs. Elias Gilbert, edied January 18, 1881. Aged 42." It was as Los Montes or as Countess of Lawfeldt that the gay world of her time knew her. At the age of 17 she began a career that took her all over time knew her. Concerning Canadian trade the review remarks: Mild weather is interfering with trade in clothing at Halfark Apples and produce move freely at firm prices, but collections are not very satisfactory. Groceries and hardware trade have improved at St. John, but ito line is up to the average fall trade. The weather has been favorable for logging.

Satisfaction is expressed at the fall movement and healthy outlook at Montreal. Dry goods payments on the fourth were well met. Mild weather retards some lines of trade at Quebec, but business on the whole is good. Money circulates freely, and artisans are well employed. Colder weather has stimulated trade in dry goods and clothing at Hamilton. Collections are fair at Toronto, trade is brisk and the outlook promising. Trade is fairly good at Victoria, B. C., and collections improving.

The Baby

Sick?

Then probably it's a cold.
Babies catch cold so easily and recover so slowly. Not slowly, however, when you use Vapo-Cresolene. Then a single night is all that is ty for a cure. You just put solene in the vaporizer, light beneath, and place near the hile baby sleeps he breathesaing vapor. Cold loosens, membranes heal, and all cases. It's a perfect specific oping-cough and croup. 8 Scanlet fever is epidemic in Ottawa. Col. A cowardly outrage was perpetrated on Sunday night at Westville, or ra-ther about two o'clock a. m. Monday ther about two o'clock a. m. Monday morming, when some party or parties unknown entered the front part of the Kirk manse with kerosene ell, put matches to same, and threw a large stone through one of the front windows. The crash awoke Rev. Mr. McLeod, who immediately came downstairs to investigate, and who of course extinguished the incipient fire. There is no doubt that Mr. McLeod's promunced temperance views, and active temperance work, so aroused the ire of some miserable specimen or specimens of humanity that they must needs give vent to their feelings in actions rather than words.
