

out m Reaching Up to the High Water Mark of Popularity.

Dr. G. M. Twitchell, of the Maine Farmer, Warmly Praises the Agricultural, Stock and Poultry Departments-The Prize Winners.

THE EXHIBITION.

The exhibition is booming. Thursday the paid admissions ran up to 4,473, a gain of 117 over the figures for the corresponding day last year. And with the crush of visitors that is exected today by excursion trains, there is every reason to anticipate that the admission of the fourth day last year, namely, 2,838, will be more than dou-Good weather is all that is needed to ensure the success of the exhi-Lition. As an attraction, it is all that anyone can wish.

The continued fine weather had its effect in increasing Thursday's atten-dance, and while there were not many visitors present in the early morning there was a steady stream through the turnstiles during the affern through and evening. It was not till night, however, that the buildings were well filled, and then the scene was an aniwith the rest of the maritime p inces in this field, has on this o mated one. The out door athletic attractions

drew most of the visitors to the parade ground both afternoon and evening. Seabury, the high diver, made a sensational hit, and his dive was seen to far better advantage than when introduced for the first time on Wedresday evening. Yesterday afternoon tention which our orchardists, partihe made two preliminary drops from a flying trapese into the tank, once turning a double somersault in the passage, while his flight from the top 80 foot pole was a graceful, swift plunge, that was rewarded by ringing applause from the large orowd. The acrobats Ranzo and Arno gave a pleasing performance on an elevated platform in front of the grand stand, which will be repeated every afternoon during the continuance of the show.

The display of fireworks that night was all that had been advertised and delighted the largest growd so far this year. The grandest piece of all, the Seige of Manila, evoked a storm of hearty approval. Messrs. Hand are evidently doing their full part to make the exhibition a grand financial success by keeping perfect faith the public.

Let the United States and Great Britain march on, shoulde to shoulder, in the grandest century Union Jack. As the party ascender the platform, the Star Spangled Ban ned was played by the Artillery band When they were seated, President Pit that is now approaching. (Cheers.) Three cheers were here proposed and given for the covernor's staff. given for the covernor's staff. Premier Emmerson was then called upon. He said he had already given his contribution a few days ago, yet as officially representing New Bruns-wick he heartily welcomed the dis-tinguished visitors to the province. As Gov. Powers was speaking he was reminded that it was an accident that the audience to give three cheers for Her Majesty, which was given with a vigor. He then asked that three cheers be given for that man whom Canadians esteemed and honored, Pre sident McKinley. (Loud cheers.) Lt. Gov. McClelan was then intronade the governor a citizen of the duced to the large audience, by whom United States, an accident perpetrated he was received with hearty oh betokening the respect with meanly unceres betokening the respect with which he is held by the people of this province As he arose the band played God Sav the Queen. He said he felt embar ng the by Lord Ashburton. In close remier repeated his hearty words of relcome. (Chears). President Fitfield then introduced Senator Stanley Plummer of Dexter, who said that he was taken completeraised in addressing such a large and representative audience. He felt proud to see so great a crowd gather ing to see this exhibition, which was superior to any held here in forme years. The city of St. John had jus ly by surprise, but as a loyal citizen of Maine, a state second to none in its loyalty to the union, he was glad of this his first opportunity to pay a visit to the province of New Brunswick. passed its fist anniversary since the great fire which had left it a heap of The two peoples were of common origin and race, and should co-opersmouldering ruins, and now it was striving, with success, to reach the same position which was occupied by ate to do the work which God had given them to do. Wherever the Anglo-Saxon race goes, labor saving cities of similar size and posimachinery, humanitarian institutions, religious and political liberty have This province had, he said. the sympathy of the people of Maine was evidenced by today's program Polstoi says that the neighbors wh one. He rejoized that today the uld love are our neighboring Anglo Saxon race is manifesting its superiority and valor all over the earth, and is now giving assurance that it is the race which will eventu-

ended to the governor of Maine and his staff the most cordial welcome from the people of New Brunswick. The people here recognized their duties to the meteor flag of England, but they recognized and respected the Stars and Stripes. (Great applause.) President Pitfield, in introducing the governor of Maine, heartily welcomed him and his staff. Governor Power. the head of the State of Maine; Gen. Richards, the highest military officer in the state; Gen. Hamlin, whose father occupied the vice president's chair at the time of Lincoln's presidency; Col. Stetson, the governor's side de camp, and Hon. A. W. Spalding. It was a great satisfaction for him to see the commingling of Anglo-Saxon races. (Applause.)

Governor Power, who was received with vigorous applause, thanked the people of New Brunswick for their cordial welcome to him. Yet they were not strangers, for most of his life had been spent within two miles of the "imaginary" boundary line. He congratulated the officials upon the success of the fair, which was inaugurated in behalf of the working man. Anrio-Saxons, whether they lived in the sea girt isle or on the vast contirent of America, believed in the 'rights of plain people," whom Lincoln said the Lord must have loved best, for He made most of them. He was glad that peace would soon bless their land. War paralyzed the business industries of the people, by using their energies for destructive purposes. Lately the people of the United States had waged a war, not for conquest or plunder; but for the rights of man. Great Britain just now is waging in the Soudan a war for a similar purpose. Both recognized the demands of the century and are attempting to give to the down-trodden millions of the earth the liberal governments which they themselves enjoy. (Applause.) The late war has cemente the bonds which unite the great Anglo-Saxon races. He believed that it would te the greatest orime for these peoples to ever carry their disputes to arms

Richard. The stock yards were pretty busy spots Thursday afternoon, when the judging of cattle was in progress. The judges have not yet completed their labors, but they have finished up seved their ety of crabs and plums, and samples eral classes. The entries have been of green and ripe strawberries on the large in number and embrace, among cuhers, the following: Shorthorns, 48; George L. Welling of Westmoriand Herefords, 26; Devons, 4; Jerseys, 72; Cape represents Westmorland county with 24 varieties of apples, three, of Gurnseys, 19, nearly all of them. fine cattle. The awards in ears, some grapes, crab apples, etc. these classes have been pretty well divided from a territorial view, but New Brunswick breeders citts, John M. Colpitts of Mapleton. have no reason to be ashamed of the manner in which they have came out conard Colpitts of Elgin, and F. C. Colpitts of Pleasant Vale. Their unitof the competition.

Thursday the exhibition was in full running order in all its departments, although it was late in the day when the finishing touches had been put on the poultry and agricultural halls. There is a growing conviction that the upper flat of the agricultural building is too small for the purposes to which it is devoted and that more space is required to display the fruits and root crops in such a way that visitors can have a chance to inspect them thoroughly. As things now are, although Supt. Peters has made the best possible use of the space, 1-otatoes, cabbages, squash, carrots, beets, etc., are either so huddled together as to cause confusion or so scattered as to be useless for purposes of comparison. What has been done for poultry will have to be applied to the fruit and farm produce departments before stother exhibition is attempted. So too, with the carriages. The drill shed is overcrowded, and other arrangements must be devised to properly accommodate them.

THE FORESTRY EXHIBIT. made in the southern annex by the New Brunswick government occupies a space 60 by 15 feet, and is, so far as can be done, a reproduction in minia-ture of the forest and its lordly denizens, as well as smaller game. It tells the sportsman at a glance more than he can learn from a thousand guide books. There is a great moose, 1,200 pounds in weight, 9 feet long, 6 feet high and with antiers that spread 50 There is likewise a cho specimen of a caribou, three beautifu deer, with foxes, wild cats; racco porcupines, skunks, fores, squirrels, etc., in profusion. Game birds of all kinds, as well as birds of prey, are mounted in natural attitudes, either grouped together on tables, or placed where they will best enhance the effect of the general display. Woodcock, partridge, snipe, ducks, teal, brant, grouse, eagles, loons, meadow hens, hawks, etc., are here to be seen under conditions that will admit of close insection. Out of the cedar background peep herds of animals and birds, an the ground is strewn with four footed and flying creatures, snowshoes canoes and implements of the chase Messrs. Carnall and Knight are in charge of the exhibit
