TO GROW HAIR ON A BALD HEAD

BY A SPECIALIST. Thousands of people suffer from baldness and falling hair who, having tried nearly every advertised hair tonic and hair-grower without results, have resigned themselves to baldness and its attendant discomfort. Yet their case is not hopeless; the following simple home prescription has made hair grow after years of baldness, and is also unequalled for restoring gray hair to its original color, stopping hair from falling out, and destroying the dandruff germ. It will not make the hair greasy, and can be put up by any druggist: Bay Rum, 6 ounces; Lavona de Composee, 2 ounces; Menthol Crystals, one-half drachm. If you wish it perfumed, add half to one teaspoonful of To-Kalon Perfume, which unites perfectly with the other ingredients. This preparation is highly recommended by physicians and specialists, and is absolutely harmless, as it contains none of the poisonous wood alcohol so frequently found in hair tonics. Do not apply to the face or where hair is not desired.

BACHE'S WEEKLY LETTER

Continued from page six. alness. Competition of this kind, without profit, is a disease which carries off the small-capital people like flies in a simoon. This hand-to-mouth no-profit business, which we have had such a long sample of, would in time touch the larger concerns also and at the end of the wedding out process the very strongest only would be left and we would have monopoly of the most kingly character.

Courage Returning.

The one thing which changes our whole business situation is the fact that confidence is growing. A year ago we were under dread of dissolution for all large corporations, and six months ago we were sure of it. And it was all brought about not by the Sherman law itself, but by the way the Sherman law was worked, and waved as a red flag by third rate politicians. Let us suppose that nothing about the Sherman law had gotten into the newspapers except the actual news; in other words that it had been valueless to politicians. It would have worked as did the pure food law, for the gradual benefitting of the entire community, quietly and effectively producing ultimate good results. If it needed amendment here

"Give me a tin of TAXI. I just want to see if all they're saying about it, is true."

That's the spirit. We say TAXI is the smoothest smoking tobacco ever handed over a counter for the money.

It costs us a whole lot to tell you about TAXI—it only costs you ten cents to prove that we're right.

TAXI—is at all tobacconists—costs ten cents. Get acquainted.

and there, amendment would have been made in a business way. But instead, the business public was frightened to a standstill, by threats from high quarters, and strange as it may seem, it took the voice of Roosevelt to knock sense into the trustees. The fear has been allayed and business will go on now and take care of itself. The experience of the sundered Tobacco trust, which has passed through the fire, has further furnished evidence of how the wheels will keep turning after the law has been complied with.

The Resuscitation of American Tobacco. The interest taken in the securities of the subdivided companies of the American Tobacco Company is evidenced by the large transactions daily on the stock exchange, which marks and in the preferred and common stocks. It is figured that the American Tobacco, as divided, sells for higher than American Tobacco as a trust ever did. The high price of the bonds and in showing both in the record for 1910—109 points higher than the record price for old American Tobacco Company common. The fact is that this is the one corporation which has passed through the fight against the Sherman law for its existence and that its securities are now selling at an extreme court decisions and are discounting a long way ahead the prosperity of the country, when this trust will no longer disturb current operations. This is the reason that astute investors are picking up the bonds of the Liggett and Myers and P. Lorillard companies, which are still selling at prices showing a profit in coming. For bonds so well secured 5 1/2 per cent, is an attractive income. The American Tobacco Company in its application for listing securities on the stock exchange, filed the following particulars with respect to the two companies.

Table with financial data for Liggett & Myers Tobacco Company and P. Lorillard Company, including book value of assets, aggregate sales, and earnings.
