

THE FIRST ANNUAL REPORT

OF **St. George's** DISTRICT VISITING SOCIETY,

JANUARY 1st, 1841.

THE Visitors of this Society, who were entrusted at the commencement of last year with a sum of money for the relief of the sick and needy of St. George's PARISH, are now enabled to lay before its friends an abstract of its expenditures, and to report favorably of its proceedings.

The objects contemplated by this Society at its formation have been realized; the Poor have been personally visited at their houses, religious Tracts circulated, and the sick and needy relieved and comforted. As it was undertaken in entire dependance upon God, and as He has seen fit to grant His blessing, the visitors are enabled to take encouragement, and to appeal to the public in general for its future support.

Whilst the evils of indiscriminate charity, and the annoyances of street begging, have been severely felt and deplored, this Institution appears to furnish a remedy. The contributions of the charitable are now placed at the disposal
