Dr. Ward's DEAD SHOT WORM CANDY

(CERTIFICATE.) Albany Medical College, December 15, 1862.

I do hereby certify that I have analyzed Dr. Ward's Dead Shot Worm Candy, and to the public I would say that they contain no hing that is in the least injurious to the youngest infant. They are entirely vegetable, and possess those truly anthelmintic qualities which above all others are preferable as exterminators of the common or Jape Worm.

J. V. P. QUACKENBUSH,

Prof. of Obstettics and diseases Women and Children.

This Medicine has been prepared by the proprietors for a number of years; has been used with the most decided success in numerous families of the first respectability, and has received the approval and recommenda- dous risks. tion of several eminent medical gentlemen. The most alarming symptoms of the disease arising from the prevalence of worms in the intestines have been speedily and entirely Robert Leach of Beckwith, being No, 102. removed by the use of the VEGETABLE WORM CANDY.

Dreadful indeed are the effects of these pernicious vermin on the constitution, destroying the appetite, vitiating the nourishing sumption and decline. Even where werms are not discharged, this medicine acts as a where he guarantees to suit any Gentleman gentie and safe domestic physic-clearing the passages of whatever is noxious, introducing a healthy chyle into the constitution.

This is a purely vegetable preparation, and contains nothing that is injurious to the smallest infant, and children will eat them as quickly as common candy.
