

"Canadian Industrial Securities."

My offerings to investors are covered in a small list, because I refuse to finance corporations with a doubtful future. I sell no oil stocks, with the exception of one which is a producing concern. I think this oil stock will pay 20 per cent. per annum; it will certainly pay not less than 8 per cent. I give personal attention to correspondence with investors.

Is Your House Warm all Winter?

If Not, Just Remember
that . . .

Oxford Boilers and Radiators

For HOT WATER or STEAM

never fail to maintain an even, healthful
warmth through all changes of weather.

The BOILERS are simple to operate,
wonderfully economical with coal, and
in different sizes to suit all buildings;
while the RADIATORS are of grace-
ful design and made in so many sizes
and styles that they suit every con-
ceivable need.

What's more, they have the only
perfect joint, iron to iron, without
gaskets; and can never leak.

They always give thorough satis-
faction.
