THE CHAPMAN HONEY PLANT.

Having expended thousands of dollars in bringing before the people one of the most wonderful honey producing plants known in the United States, or even in the world, and testing it honestly and fairly, wish to say through your valuable JOURNAL, that the seed contains so much oil that nothing but fresh seed will grow, or by thrashing if the seed is bruised or broken it will not grow, for this reason, and by the advice of many prominent bee-keepers, I have decided to sell the limited amount of seed I have raised this season at the following prices, and will send to those who have already ordered, the amount of seed due them at this low price:

- Half Ounce..... 50c
- One Ounce..... \$1 00
- Two Ounces..... 1 50
- Four Ounces..... 2 00
- Half Pound..... 3 00
- One Pound..... 5 00

One ounce contains from 1600 to \$1800 seeds. One pound of seed is sufficient for half acre if properly thinned out and reset. Write all orders plainly and give your Post Office in full.
