If you think it takes big money to furnish an apartment, come to GranTree Furniture Rental and think again. We'll show you how to fill a four room apartment with some of the classiest furniture you have ever laid eyes on and do it for peanuts! How? Because you don't buy this furniture, you rent it!

And listen to this, from now till October 31, with a six month minimum \$64.00 per month rental, we'll knock \$25 off your first months rent.

Actually, with the rising cost of tuition and books, renting furniture is the only sensible way to go and you won't find a bigger selection or more reasonable rates than at GranTree.

But remember, this offer is good only until midnight, October 31st.
