

Wanted by the Publisher

The publisher invites those who have had actual experience in the great Halifax disaster to write, setting forth their story, providing it has not already been published in any form. The manuscripts should be less than one thousand words in length. They need not be typewritten but will be more acceptable in that form. They should be vital and interesting, but brief.

Be prompt. Those accepted for publication will be paid for at regular rates.

Address: "Letters of Experience"
