Separator speed indicators		Texture of cheese	179
not satisfactory	196	Thermometer, max. and min.	174
Separator vibration causes		Truckle cheese	180
loss of fat	196	Value of milk or cream for buttermaking depends on fat	145
Separator bowl clogging	197	Ventilation in ripening-room	176
Size of rooms	129	Walls of co-operative dairies	126, 127
Slime burned	197	Washing butter	204
Snyder, Prof.	163	Water for cooling ripening-room	174
Square cheese	180	Weight of cheese marked on box	225
Steam boiler	129	Whey:	
Stock book headings	115, 116	Acidity at dipping	166, 167
Storch, Prof.	185	Acidity at milling	168
Stilton cheese	180, 181	Acidity less than milk at dipping	16
Sub-earth duct	174	Too much acid cuts color	16
Swiss cheese	183	Working butter	207, 20
Systems of paying patrons	145-148	Young Canadian cheese	180
Table of experiments in methods of paying patrons	147		
Temperature:			
Effect on ripening cheese	176		
For separating milk	195		
For working butter	207		
For storing butter	219, 220		
For pasteurizing	193
