

SAULT STE. MARIE is midway across Canada. From Sarnia on the East to Fort Frances on the West, continuously for twelve months in each year, no direct connection of the two great nations of this continent can be had except at Sault Ste. Marie. To shippers, north, south, east or west, its location is ideal. Besides having adequate railway facilities, it possesses for eight months in the year unrivalled lake facilities. Five packet freight lines operate practically a continuous service East and West from Sault Ste. Marie employing over forty steamers. The freight rate on Coal from Lake Erie ports is *thirty cents per ton.*
