NOTICE.

It will be observed that the Prognostics of the weather have been omitted for the present year, they are now never found in a respectable Almanac, being based solely on the fertile brain of the Editor, who may perhaps, make two or three ready hits during the year, whereon to found a fame for his predictions.

A Chronology of leading events in Colonial History, &c., has been added, which will be found on the right hand pages of the Calendar, which from the shortness of time in preparation, must needs be but imperfect. We hope however that it will make a beginning, which each succeeding year will find more full and complete.
