

## ANNOUNCEMENT.

**Churchill's Green Sea Turtle Oil."**

This is a medicinal oil, the base of which, as its name implies, is extracted from the Green Sea Turtle (*Chelonia Veridis*).

This species, which often attains a weight of four or six hundred pounds, inhabits the seas of warm latitudes, and is largely imported from the East Indies and America on account of the extreme delicacy of its flesh. In your—no great banquet being considered complete unless this exquisite dish makes its appearance.

The Green Sea Turtle yields a superabundance of a rich, green coloured oil, which marks the character of our compound, to which we have added several essential oils of an anodyne or pain-soothing nature. "Turtle Oil," in its natural state, was long known for its remarkably penetrating, healing and soothing qualities, and was first used for Scalds and Burns, afterwards it created a sensation by its wonderful effects in Croup, Asthma and Bronchitis. In all three of the latter cases it was used *internally* as well as *externally*. Taking this superlative natural remedy, we have made such additions as to insure undoubted merit and superiority over all other oils on the market, and we are not unaware that there are several of a high character, with which it must compete. But it is on its trial and must stand or fall on its own merits.

We shall not insult the intelligence of the nineteenth century by claiming it to be the entire *materia medica* compressed within the limit of a twenty-five cent bottle. What we claim is, that it combines two well-defined actions, viz.: Marvellous PENETRATION, with infallible power to SOOTHE; a preparation of such a character, proper to be taken into the stomach, as well as to be applied externally, admits of an unlimited range of applications and possible success in the numerous accidents and ailments of our every-day-life.

Nothing need be said further than that we know what we offer to the public, and that we guarantee "CHURCHILL'S TURTLE OIL," on the wrapper and over our signature, on every bottle:—*For Soothing, Healing and Curing Pain, Hurts, Sprains, Bruises; Scalds, Burns, Frost-bites; Croup, Coughs, Sore-throat, Asthma; Pain in the Back, Sore and Swollen Joints, and Rheumatism.* TRY IT. Sold everywhere. Price,

Respectfully yours,

WM. CHURCHILL & CO.
