The Extraordinary Efficiency

In the Head Office of the institution in Hamilton, the thirty-first annual meeting of the Bank of Hamilton was held at noon on Monday. On motion, Mr. A. G. Ramsay, Vice-President, took the chair, and Mr. J. Turnbull, General nager, acted as Secretary.

On behalf of the Directors, Mr. Ramsay submitted the following Report:-The Directors beg to submit their annual report to the Shareholders for the year ended 30th May, 1903.

The Directors have to report, with great regret the death of Hon. A. T. Wood, for long a valued and efficient member of the board.

John S. Hendrie, Esq., M.L.A., was chosen to fill the vacancy thus created.

This report is my last official act as President of the Bank, as it is to be followed by my resignation as a director, a position which I have occupied since the organization of the Bank, filling the offices, first of Vice-President, and then of President, and during that long period of over thirty years, I have watched with much care and interest the rise and progress of the Bank from its small beginning, through its whole career of uninterrupted prosperity, to its present large proportions and extended sphere of influence. In retiring, I desire to thank the Shareholders for their oft-repeated marks of confidence, and I feel proud to be able to leave the affairs of the Bank in the satisfactory condition disclosed by the report.

In moving the adoption of the Report, Mr. Ramsay pointed out that the profits of the year have been of a very gratifying and satisfactory character, considerably exceeding those of the previous year, as well as those of any preceding similar period. He alluded also to the large increase in deposits during the year, showing the increase of confidence on the part of the public in the Bank. He also referred with great regret to the retirement from the Board of Mr. John Stuart, after a continuous efficient service upon it since the organization of the Bank in 1872, and called attention to the fact that at a later stage a resolution

pearing on the subject would be submitted.

Mr. Ramsay concluded by moving the adoption of the Report, which was econded by Mr. George Roach, and carried. Mr. Ramsay then asked Mr. Turnbull to read the agreement entered into between the Bank and Mr. John Stuart, which provides for a retiring allowance of \$5,000 a year, payable monthly in advance, for life, and then moved that the agreement of the 6th June. 1903, between the Bank of Hamilton and Mr. Stuart, the late President, be confirmed by the Shareholders.

Mr. William Hendrie, as an original and perhaps the largest Shareholder, seconded the motion, which was carried unanimously. It was moved by Mr. Samuel Barker, M.P., seconded by Mr. Edward Martin, K.C., that the thanks of this meeting be given to the Directors of the Bank for their services during the year. The motion carried unanimously, and Mr. Ramsay returned thanks for

Moved by Mr. William Hendrie, seconded by Mr. David Kidd,-That the thanks of this meeting be given to the General Manager, Assistant General Manager, Inspectors, Agents and other officers of the Bank, for the efficient performance of their respective duties. Mr. Hendrie, in moving this resolution, referred to the necessity for an efficient staff of officers, and thought that they should be well paid. The motion was carried unanimously.

Mr. Turnbull, in reply, said :-I am glad, on another annual occasion, to have the opportunity of returning thanks, on behalf of my brother officers and myself, for the kind and hearty vote of thanks which has again been offered to us. It is a special gratificatio that a more than usually prosperous year has, perhaps, added zest to it. The Bank has done, I think, very well indeed, and it is reasonable that the Shareholders should be well satisfied with the results of the year's operations. Our losses have been a little less than the normal; and, so far as I know, we have a clean and good business, with the appearance of abundant promise for the future. The general prosperity of the country continues, and I see nothing ahead to indicate a cessation. The large immigration presently existing, especially in the North-West, must bring a good deal of money into the country, and what is worth more than money, a good class of settlers, prepared and destined, no doubt, to take a part, like their predecessors, in the rapid and permanent upbuilding of this great country. Manufacturing is becoming more and more extended, and we are becoming less and less dependent upon foreign goods. On the other hand, our exports keep increasing as to quantity and improving as on the other hand, our exports keep increasing as to quality, and implement to quality. We keep learning, year by year, better methods of manufacturing, packing and shipping, and the result, of course, cannot fail to bring not only largely increased returns, but much more profitable ones. A danger to be guarded against, of course, in a rapidly growing country like this, is the tendency to become over-sanguine and over-speculative. The banks and other large institutions can do a good deal to discourage this tendency, and for our part, we have done, and will continue to try to do, our best in this direction. There is no doubt that there is a real danger in this characteristic of ours, and it is the part of all prudent persons and those who have the best interests of the country at heart to spare no effort to discourage such business methods and enterprises, and to try, by precept and example, to confine all over whom they have any influence within the paths of moderate simplicity, careful living and

The Shareholders may pardon me on this occasion if I detain them for few moments in an effort to give a little retrospect of what has passed during the fifteen years in which I have been in the Bank's service. The time is not unfitting, and the number of years I have named represents, perhaps, a period

make the concern a more important factor in the financial affairs of the country of the sire to always have Dr. Chase's Kidney-Intervention of the first steps was the opening of an office in Toronto, where, I may be say, we have almost from the very first done a profitable and satisfactory business, not only adding considerably to the revenue of the Bank, but materially to its importance and reputation. The next step was to open some agencies of the bank of the particular lines of railway to which we had been hitherto mostly limited. Then, after consultation with the other points of the staff, and with the consent of the Directors, we began opening of an office in Toronto, where, I may be allowed in the country of the Bank of the Roughout and reputation. The next step was to open some agencies of the staff, and with the consent of the Directors, we began opening or an extravagant man grows poor in the step was to embrace the opportunities which Manitoba presented, and an office was opened in Winnipeg, and in one or two other apparently favorable points in the Province of Manitoba. These we have gradually extended, and some offices in the North-West Territories have also been added. Three or four years ago we added British Columbia to our field of operations, and while we have only two offices there so far, enough has been done to show that we have made no mistake in going, and that we have just made a beginning

of what may ultimately be an important field of usefulness and profit, The general result of the above has been that instead of the ten agencies which we had when I joined the Bank in 1888, we have now fifty-six, and while some of them have admittedly not been such decided successes as we had hoped for, none has been unsuccessful, and nearly all have been highly successful. It is necessary to repeat that these results have been accomplished by the heartiest co-operation on the part of the staff, and all have been effected with

I have the strongest faith in the position and prospects of this city. The
Hamilton merchants, manufacturers and other financial interests are spreading
themselves all over the country, and making their mark wherever they go, and it would be out of all reason if the Bank of Hamilton did not take its full part. I hope, therefore, that we shall continue the policy of judicious and ——energetic extension, and that with the next and all future Boards of Directors there will be the heartiest co-operation in the carrying out and elaborating of this policy, and that the Bank of Hamilton will continue t hold that important relative place among the financial institutions of the country to which, in my judg-

during those years.

Alexander Bruce moved a vote of thanks to Mr. Ramsay, which was seconded by Hon. William Gibson, and was carried unanimously.

The Scrutineers reported the election of the following Directors:—

At a subsequent meeting of the Directors, Hon. William Gibson was elected President, and J. Turnbull Vice-President.

TO BE ARCHBISHOP SETON.

Despatches received at Seton Hall and by several priests of New York announced that the Pope has conferred the title of titular Archbishop upon Mgr. Robert Seton, who for a quarter of a century was rector of St. Joseph's Church in Jersey City, but who in the last years has been residing in Rome.

Mgr. Seton was suggested as successor to Bishop O'Connell, when that prelate resigned the rectorship of the American College at Rome. The newly appointed Archbishop is well known as a scholar and has a reputation as a speaker on theological subjects.

Mgr. Seton is intensely patriotic. He was once reported as saying that next to Heaven comes the United States. He always caused the Stars and Stripes to be unfurled from all Catholic buildings on holidays. He caused comment in the Spanish-American War, by having the flag raised from the steeple of his church and by keeping it there until peace was declared.

The new Archbishop comes from one of the best known Catholic families of America. His mother was the founder of Seton Hall College, South Orange, New Jersey, and established the order of Sisters of Charity in the United States.

Mgr. Seton will be consecrated in Rome. It is expected that the ceremony will occur about the middle of
