

in the Upper Provinces combined with the absence of P. E. Island oats from our market, combine to make prices here very firm.

The talked-of advance in flour has not taken place. Small hogs are in

good demand and are quoted at from 6 to 7c. per pound. Beef is low, but mutton is slightly higher.

The demand for bran, etc., continues good. Our prices are firm, there being a large consumption this

year owing to the shortage of hay. The high price of oats helps to maintain firmness in the market for feeds. Manitoba bran is quoted at \$20.50 and \$21.50, and Ontario \$21.50 and \$22.50 per ton.

DAN PATCH 1:56

DAN PATCH GIVEN UP TO DIE

Office of the Kansas City Veterinary College, 1230-32 East 25th Street.
DEWEY C. MOORE, D.V.M., Pass. HARRY C. BARNCOCK, M.D., D.V.M., V-Exam.
FRANKLIN P. KATZ, D.V.M., V-Exam. HENRY STEVENS, M.D., V.M.
W. H. WATKINS, Minneapolis, Minn.

Dear Sir:—I first saw your horse Dan Patch, about 10 A.M., Sept. 10th inst. He was suffering severely from the abdominal region caused by impaction of the bowels probably caused by eating oatmeal. His pulse rate was 75 per minute and his temperature was 101. The character of the pulse was weak. The condition gradually grew worse during the afternoon until about 4 p.m. the pulse rate had reached nearly 100 and the temperature was 102. The heart grew so feeble that the pulse could not be taken at this time and the pulse could not be determined by listening to the heart beats taken at this time and the pulse could not be determined by listening to the heart beats. A cold preparation to rectify the condition had been made and the pulse was taken continuously. The visible mucous membranes were highly injected, with the high temperature and the condition gradually grew worse. The abdominal cavity. At this time owing to the inflammatory condition and the extreme weakness, the condition was very unfavorable. From 4 to 6 p.m. I had little or no hope of his recovery. About 7 p.m. a slight improvement was noticed and the condition gradually improved. Very truly yours,
E. G. MOORE, Princeton & Exeter. E. G. MOORE, D.V.M.

HIS WONDERFUL RECOVERY

In four days from the time he was given up to die by these high-class Veterinarians we shipped Dan Patch from Toledo to our "International Stock Food Plant" at Havana, Ill., and commenced feeding him three times the usual quantity of "International Stock Food" and giving him ten four times per day. He received his strength very rapidly and in about seven days from the first day of his sickness he passed a mile at a trot in 1:56. In 1:56. This was the first of a cold wind and over a track that was with change for extreme hot miles. Dan was shipped from Springfield to Memphis and in six weeks from the date of his sickness he established his well as being a grand old champion. "International Stock Food" is a powerful and reliable vegetable preparation to give permanent strength to the entire system as well as being a powerful and reliable vegetable preparation. It is used and endorsed by a majority of the great trainers and is in constant use on most horse-breeding farms. Dan Patch has been and "International Stock Food" ever since he was brought here two years ago for \$10,000. Since that time Dan has broken 7 world's records and has been twice champion and champion. Owing to his great constitutional strength he was able to withstand his severe sickness. You could not ask better proof of the superior merits of "International Stock Food" which you can feed at a cost of

3 FEEDS FOR ONE CENT.

DEAR SIR:—I thank you for your letter of the 10th, and for all the trouble you have taken to bring the "International Stock Food" to notice. The merits of the food for horses is a well-known thing and you have shown it to me in your hand, but I did not give it then attention as a possible medicine for other ailments. A recent trial of the food with a pair of fine imported from what I diagnosed as "International" Fever, but which actually proved much more serious. After using two bags within three days not a sign of fever. I have returned to the food, and all of which was returned to me and the veterinary men and are now well. On the fourth day I think they had, but the remaining four rapidly recovered and are now well. I took the precaution to feed "International Stock Food" all the time on the farm and in all other places during this outbreak, and quite before have saved myself from serious loss by using your remedy. I am, dear sir, Yours faithfully, Edw. J. H. BARNCOCK, Director.

IF YOUR MONEY BACK IF THEY FAIL TO CURE
