

"Monarch Peninsular"

—The Steel Range Which Never Needs Blackening.

"Monarch Peninsular" Range is made of the finest English polished steel. We import this special grade of steel because we have found, by long experience and careful selection, that it is the best steel in the world for ranges.

It has a high polish—is dark blue in color—and only needs an occasional rub with a dry cloth to keep it fresh and bright.

IT NEVER NEEDS BLACKENING.

The finish of the whole range is rich and tasteful. The outside cast parts are nickel plated, and the nicked edges are removable. We fully guarantee material, workmanship and service of every "Monarch Peninsular" Range and give a bond with each of these ranges which absolutely protects the buyer.

Our new booklet is eight pages of stove facts with illustrations. Let us send you a free copy to guide you in selecting the right range.

We are also makers of the "HECLA" Furnace 86

HOW THE VERY LIFE IS EATEN OUT OF MOST ROOFING.

Not two Roofings in a hundred can withstand the slow, secret, dangerous attacks of acid—a deadly enemy to most Roofing. Because few Roofing makers care to spend the extra money necessary to make such Roofing. Acids are caused by green or damp hay, or the cattle in your sheds. These cattle sweat, producing vapor which contains acids and gases destructive to most Roofing. These enemies attack the underside—which is weak in most Roofing—and does its ruinous work where you cannot see it, till too late. The first you know that it is not what the fellow claimed is the startling sight of a million "pin-holes" all over. Examine the Roofing of your barn now—you'll likely find this defect. This is caused by weak insides, which should be the strongest part, but the portion hopelessly slighted by most makers because you won't test it. Nearly all Roofing, except Brantford, has as a foundation wood pulp, jute, cotton cloth, etc., which cannot absorb sufficiently. It possesses nothing to hold it together, and is coated with cheapest covering obtainable: animal fats, greases, oils, tar, or some other refuse. These dangerous coatings are so weak that they are ready at the mercy of the acids. And the foundation! It has no barrier! It has already wilted. No amount of supposedly preventatives can save this Roofing. It is bound to go to pieces sooner or later and just when you least expect. Most Roofing makers will try to avoid the issue if asked to show insides of their Roofing. But we encourage tests of Brantford Asphalt Roofing. There are no secrets, nothing that you shouldn't know. The foundation of Brantford Asphalt Roofing is long-fibred, evenly condensed pure wool. Asphalt is forced into wool, soaking every fibre. It is heavily coated with special waterproof coating into which Silicia Sand is rolled under pressure. Brantford Asphalt Roofing is wear resisting, fire, water, weather, acid and smoke-proof. Rain or snow can't freeze or crack it; heat of sun cannot melt it. Its pliability prevents cracking or opening at seams. There are many other Brantford specialties. Our Big Roofing Book with Brantford samples is free. Write us or your dealer now.

Brantford Roofing

Brantford Roofing Co., Limited, Brantford, Canada.

Nothing else gives such life and staying quality to a roofing as Trinidad Lake asphalt.

Genasco Ready Roofing

is made of Trinidad Lake asphalt and gives lasting resistance to sun, air, rain, heat, cold, and fire. It is mighty important to know what your roofing is made of.

Be sure you see the Genasco trademark and get the roofing with a thirty-two million-dollar guarantee. Mineral and smooth surface. Write for the Good Roof Guide Book and samples.

THE BARBER ASPHALT PAVING COMPANY

Largest producers of asphalt, and largest manufacturers of ready roofing in the world.

BLACK KNIGHT STOVE POLISH

Look how much "Black Knight" Stove Polish you get for 10c.

None of your stingy little tins of fine powder (that must be mixed with water) or a hard cake (that must be scraped)—but a big generous tin of coal black paste, that is easily applied, and bursts into a brilliant, lasting shine after a few rubs.

You certainly do get 10c. worth of the best stove polish, in the big 10c. cans of "Black Knight."

Send us 10c. for a large can postpaid if your dealer does not handle "Black Knight."

THE F. F. DALLEY CO. LIMITED, Hamilton, Ont.
Makers of the famous "2 in 1" Shoe Polish.

Cooks on top of the stove, bakes in oven at same time

You can cook over every pot-hole and bake in Pandora oven at same time—and get perfect results. That's because cooking draft is also baking draft. Flues are so constructed that heat passes directly under every pot-hole and around oven twice before passing up chimney. No wasted heat—instead fuel does double duty, saving Pandora owners both time and money.

Would you not like to be a Pandora owner?

McClary's Pandora Range

STRENGTH AND ECONOMY

You can depend absolutely on PEERLESS Fencing to hold live stock under any and all conditions. It is made of all No. 9 steel wire heavily galvanized and has lots of spring in it, making ample provision for contraction and expansion due to changes in the temperature, sudden shocks, etc.

PEERLESS

The Fence That Saves Expense

is held together by the Peerless lock which holds the wires securely and makes Peerless Fence absolutely stock proof. The lock cannot be slipped or knocked loose. Write for our new book—it will interest you. It's free.
