Don't Be Stingy with your farm! Don't go on taking crop after crop from your land without returning some of the grain growing qualities to the soil.

Sooner or later the fertility will vanish and then you'll regret the delay. **Fertilize—Now**, and use the best means,—

THE "MASSEY-HARRIS" MANURE SPREADER

Strong well-braced frame. Heavy wheels, wide tires.

Both hind wheels are drivers, and well lugged.

Apron works easily and without binding. Control is simple and easy.

All gears are strong and enclosed. Adjustable rake.

Box is absolutely tight. Prevents waste of manure.

Foot pedal for stopping feed when turning. An exclusive "M-H" feature.

SEED

Timothy from \$2.85 to \$3.10
 Red Clover \$10.50 to \$11.00
 Also have Millet, Brome, Rye Grass, Red Top, Lawn Grass, Etc.

Write for samples and prices.

DOMO CREAM SEPARATORS

\$18.00 to \$49.00 to \$49.00

are as good as excellent workmen can make out of the best materials. The Separators are made in Europe in the heart of the coal and iron district, where both labor and material is cheap. This makes the price very low to us, and the price is low to you because we are satisfied with what is probably the smallest profit ever taken on the sale of a Cream Separator.

There are in use in Canada, thousands of these Separators, and hundreds of thousands in Europe, and every purchaser is delighted. We will tell you what Western Canada purchasers say. Write before you go to bed for circular "A". It tells about our 30 day offer.
